

## PB8I Power Bank

### TECHNICAL SPECIFICATIONS

<b>Battery</b>	Li-Ion
<b>Rated capacity (MilliAmpere-hour Rating), mAh</b>	5,100
<b>Nominal voltage, V</b>	5
<b>Voltage at end of discharge, V</b>	5
<b>Charging voltage, V</b>	5
<b>Full charge time, hour</b>	6.5
<b>Full discharge time (I=250 mA), hour</b>	20
<b>Cycle life, times</b>	500 +
<b>Body material</b>	ABS plastic
<b>Degree of protection (acc. to IEC60529), IP Rating</b>	IPX7 waterproof
<b>Mount type</b>	weaver
<b>Operating temperature (F/C)</b>	-4 to 122 / -20 to 50
<b>Dimensions (in)</b>	3.23 x 1.3 x 2.48
<b>Weight (oz.)</b>	7.8

### FEATURES

- Rechargeable lithium-ion battery
- Built-in charge level indicator
- Designed to power digital devices, thermal imagers, and night vision riflescopes
- Increases operational time of external equipment
- Weapons mountable
- Waterproof
- Compact and lightweight

### INCLUDED ACCESSORIES

- Micro USB cable

### ABOUT

Forget the countless trips to the store to purchase batteries, the Pulsar PB8I Power Bank is a 5,100 mAh capacity USB rechargeable external battery pack that helps digital and thermal devices last up to 20 hours on a single charge during extended periods of usage. Ideal for the nighttime hunter who doesn't want to change batteries during stands or while in the field, the PB8I features a built-in charge level indicator and more than doubles the operational time of external equipment. Weapons mountable, this unit is waterproof and shockproof, allowing it to be mounted directly to a firearm or other device with a picatinny rail. Weighing just 7.8 oz., this power bank will increase battery life without greatly increasing the overall weight of the firearm.
