

Ultra-940 IR Illuminator

TECHNICAL SPECIFICATIONS

Equivalent IR Power (mW)	150
Diode Type	LED
Lens Diameter (mm)	24
IR Wavelength (nm)	940
Power Supply	N/A
Range of Beam Divergence (degree)	5.5 - 6.5
Rifle Mount	Attaches to Digisight Ultra
Battery Life (hour)	N/A
Waterproof Rating	IP55 - water resistant
Body Material	Plastic
Operating Temperature (°F / °C)	-13 - 104 / -25 - 50
Length (in/mm)	4.3/109
Width (in/mm)	1.8/45
Height (in/mm)	1.4/36
Weight (oz)	3.03

FEATURES

- Designed for use with Digisight Ultra models
- Invisible IR illuminator
- High powered LED IR illuminator
- Increases detection and identification range
- Variable beam control, from spot to flood
- Adjustable IR, position beam within the field of view
- Variable output power (brightness)

INCLUDED ACCESSORIES

- Carrying case
- Cleaning cloth
- User manual

ABOUT

Solely designed for Digisight Ultra riflescopes, the Ultra-940 IR Illuminator is an invisible 940nm LED IR that prevents user detection from targets. Perfect for serious predator and hog hunters, this IR illuminator attaches to the socket on the side of Digisight Ultras and increases detection and identification range at night. Variable beam control allows the IR to focus from spot to flood depending on the scenario and the IR beam's position is adjustable and able to align perfectly with the Digisight's field of view. The Ultra-940 also features variable power, providing 3 different brightness settings.
