## **STEROID MONSTER**

Active Ingredient: Clomiphene Citrate (Clomid) Capsule Count: 50 Tab Molar Mass: 405.966 G/mol  
Formula: C<sub>26</sub>H<sub>28</sub>ClNO Trade Name: Clomidothers Concentration: 50 mg/cap Presentation: 50 Capsules  
(Total box 2500mg) Ship From: Europe But a good PCT plan with Clomiphene includes - when you  
stop the steroid cycle (and all the steroids are flushed out of the body) start using Clomid - 50 mg a day  
for a period of 2 weeks. At week 3 and 4 drop down the dosage to 25 mg a day and then completely  
stop.

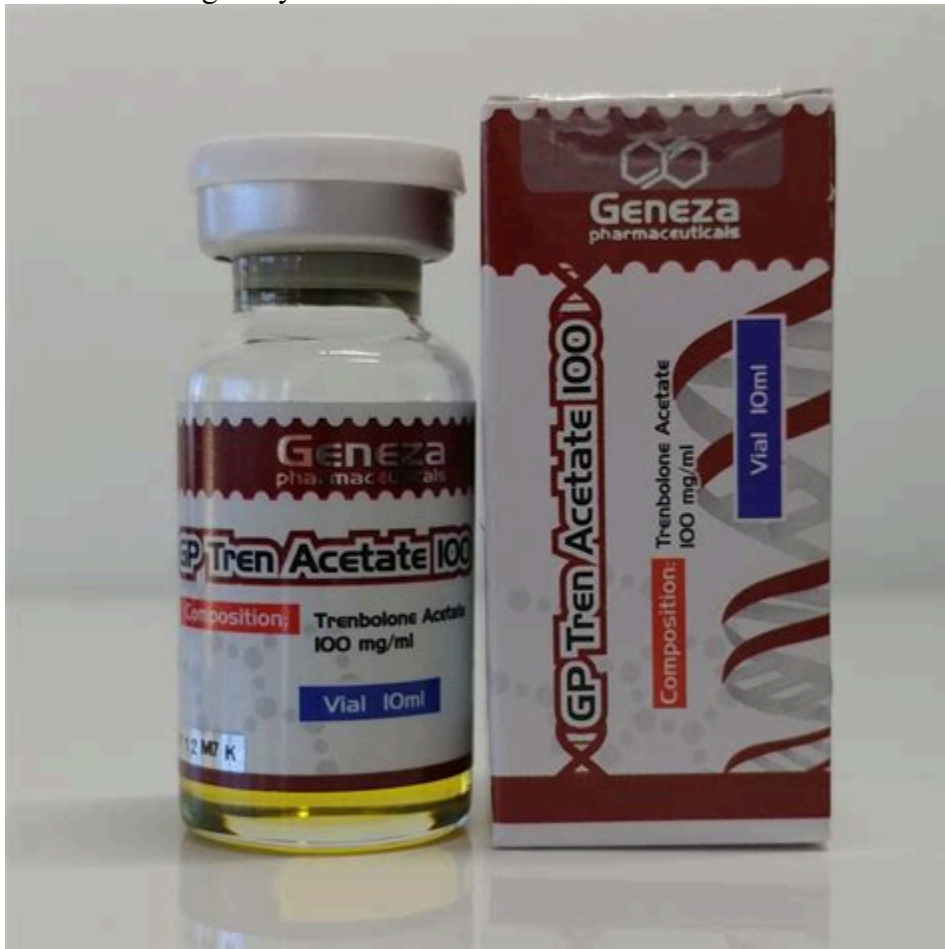

Bodybuilders use Clomid to induce the production of endogenous testosterone in the testes and thus avoid hormonal imbalances. Athletes testify that a daily dose of 50 to 100 mg of Clomid helps restore the normal rate of Testosterone within 2 weeks. [listen to this podcast](#)

Clomid 50mg 10tabs ClomiGen - MyoGen. \$ 23 \$ 12. Rated 4.00 out of 5 based on 1 customer rating. ( 1 customer review) As a SERM, Clomid prevents estrogen from binding to receptors by binding itself to the receptors instead. It provides to the athletes who are coming off steroids a higher natural production of testosterone and is a necessary. Clomid 50mg helps women conceive and trigger the ovulation period and boost egg formation in the ovary. These pills come in beige color and are circular in shape. Inside 2 circles, you would find 2 M's marked in between. The pills are packed in PVC . These sachets come with 100 in a pack.

Slight steroid cycles might require only 50 mg a day for the first 2 weeks and 25 mg a day for the week 3 and 4 and that's it. There are also combination of PCT medicine stacks with Clomid 50 mg and Nolvadex 20 mg a day for 4 weeks. All of this is recommended to be stacked with supplements.

Bodybuilders use Clomid to trigger the production of endogenous Testosterone in the testicles, and thus avoid hormonal disturbances. Athletes testify that a daily dose of 50 to 100 mcg of Clomid helps restore normal testosterone levels in 2 weeks. Laboratory: Euro Pharmacies, Form: Oral, Molecule: Clomiphene

Citrate, Concentration: 50mg / tablet, Presentation: 20 Tablets, Recommended dosage. [visit website](#)
