

CLOTHING CARBON CREDITS

Carbon Offset Log and Certificate ID Look-up Table - download pdf to search for your certificate ID.

TOTAL CLOTHING CARBON CREDITS (kg) 36510

Notes

*ANREU is Australian National Registry of Emissions Units administered by the Clean Energy Regulator; Verra is a nonprofit organisation base in the USA operating the world's largest carbon crediting program

Certificate ID	Clothing Carbon Credits (kg)	Name of Offset Project	Name of Registry* and Project ID	Listed below are the Registry Unit number(s), now retired / surrendered, which are the source of the Carbon Offsets which form Clothing Carbon Credits. Units are retired in sets of three, each batch generating 3000kg (3 tonne) of carbon offsets. The nominated VCU's / ACCUs have been retired from the Registry permanently, creating our Clothing Carbon Credits. Once retired, no other person or entity can hold or retire the units - they are used exclusively for one-time allocation as Clothing Carbon Credits.
