# **Spring Plungers-** smooth, with collar and ball 22080.0403

### **Product Description**

Spring plungers can be used for locating or for applying pressure, as a detent or for ejection.

#### **Material**

#### Body

· Thermoplastic POM, blue

· Stainless steel, hardened

#### Spring

Stainless steel

#### **Assembly**

A tolerance of H7 is recommended for the locating hole of d<sub>1</sub>.

#### Characteristic

Standard spring load: no marking

Light spring load

Standard spring load

Heavy spring load

#### More information

#### **Notes**

Special types on request.

Spring range and forces are precisely tested.

#### References

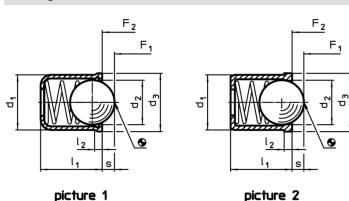

Calculation of indexing resistance, see details at the start of the section.

Version with higher spring forces see "EH 22080. Spring Plungers, smooth, long, with collar and ball".
