Lateral Plungers • smooth, with seal 22150.0131

Product Description

To be used for positioning and applying pressure, e.g. during painting and sandblasting. Sealed against chips and dirt.

Material

Seal • CR

Body

Aluminium

Spring

Steel, blackened

Pin

Steel, case-hardened, zinc-plated by galvanization

Assembly

Installation by pressing in. Formula for calculating the center distance for the mounting hole: $l_0 = z/2 + w + x$, $l_0 =$ center distance, y = workpiece height, w = workpiece height, x = coordinate dimension, s = stroke, z = stop diameter Calculation dimension x: y greater than or equal to $l_2 - d_2/2$, then $x =$ $d_2/2 - s$ or
y smaller than $I_2 - d_2/2$, then x = $d_2/2 - s - [(I_2 - d_2/2 - y) * 0,123]$

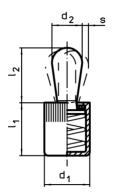

Characteristic

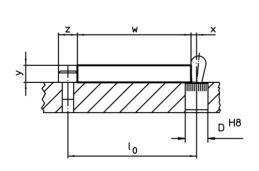

Standard spring load = spring from steel, blackened
