# Lateral Plungers · smooth, with seal

22150.0132

## **Product Description**

To be used for positioning and applying pressure, e.g. during painting and sandblasting. Sealed against chips and dirt.

#### Material

#### Seal

• CR

#### **Body**

Aluminium

### **Spring**

• Steel, zinc-plated by galvanization

· Steel, case-hardened, zinc-plated by galvanization

#### **Assembly**

Installation by pressing in.

Formula for calculating the center distance for the mounting hole:

 $I_0 = z/2 + w + x$ 

 $I_0$  = center distance,

y = workpiece height,

w = workpiece length,

x = coordinate dimension,

s = stroke,

z = stop diameter

Calculation dimension x:

y greater than or equal to  $l_2$  -  $d_2/2$ , then x =

 $d_2/2 - s$ 

y smaller than  $l_2$  -  $d_2/2$ , then x =

 $d_2/2$  - s - [( $I_2$  -  $d_2/2$  - y) \* 0,123]

#### Characteristic

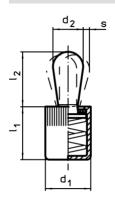

Heavy spring load = spring from steel, zincplated by galvanization

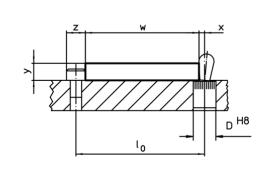

#### More information

#### **Further products**
