Lateral Plungers· with plastic spring and pin
22150.0217

Product Description

To be used for positioning and applying pressure, e.g. during painting and sandblasting.

Material

Spring
- Plastic

Pin
- Stainless steel

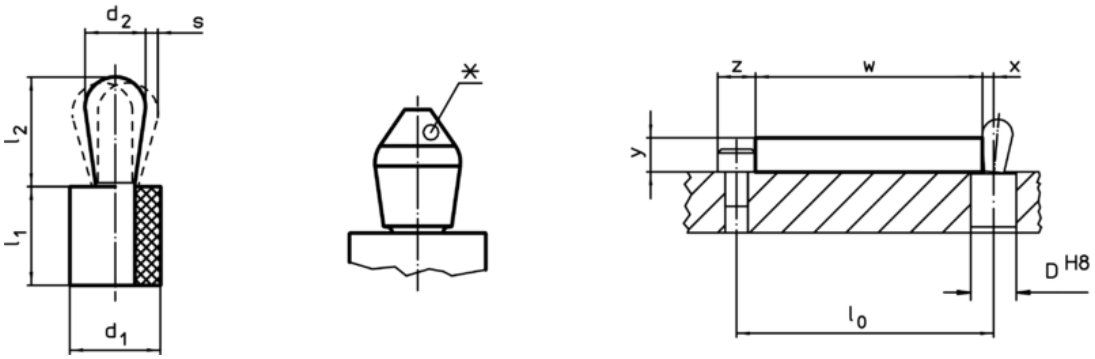
Assembly

Moistening the body allows for easier installation.
Installation by pressing in.
Formula for calculating the center distance for the mounting hole:
l_0 = z/2 + w + x,
l_0 = center distance,
y = workpiece height,
w = workpiece length,
x = coordinate dimension,
s = stroke,
z = stop diameter
Calculation dimension x:
y greater than or equal to l_2 - d_2/2, then x = d_2/2 - s
or
y smaller than l_2 - d_2/2, then x = d_2/2 - s - [(l_2 - d_2/2 - y) * 0,123]

Characteristic

Light spring load = blue spring

Drawing



*some sizes (see chart) have a deviating pin shape
