

Lateral Spring Plungers with spring steel sheet

22160.0006

Product Description

The lateral spring plunger with spring steel sheet guarantees a simple and secure positioning of workpieces or components at stops or fixture plates, e.g. in board mounting or before the clamping process in the jig and fixture construction. The double-sided version allows for serial clamping. Below h_1 is resulting a down hold effect.

Material

Spring element

- Stainless steel

Body

- Steel, black
