# Ball Lock Pins. self-locking, with adjustable clamping span

## 22380.0604

### **Product Description**

Used for mounting or clamping workpieces, remove remaining play or slack via variable locknuts. All versions are corrosion resistant. When using stainless steel 1.4542: high-strength, hardened, abrasion resistant pin with high load capacity.

#### Material

#### Pin part

· Stainless steel 1.4542, precipitationhardened

### Lock nut

· Thermoplastic, black

· Stainless steel

### Adjusting nut

· Thermoplastic, silver

#### **Operation**

The balls are unlocked by pressing the knob.

#### Characteristic

Types from stainless steel 1.4542 with marking below the balls.

#### More information

#### **Notes**

Special types on request.

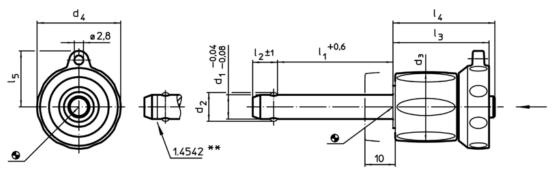

#### **Accessories**

Can easily be fitted with retaining cable EH 22400.

### **Further products**

- · Locating Bushings, for ball lock pins and socket pins
- · Locating Bushings, with flange, for ball lock pins and socket pins
- **Retaining Cables**
- Positioning Bushings, with collar
- Positioning Bushings, without collar
