Expander Sealing Plugs• body from case-hardened steel

22880.0008

Product Description

Expander® sealing plugs are used for safe, quick and economic sealing of bore holes in fluid technology, e.g. hydraulic drilling holes in jig and fixture construction. Assembly is effected by pressing in the sealing plug into the drilling hole by means of the prescribed setting die.

Please refer to the technical data following these product information pages.

Material

Body

· Case-hardened steel, zinc-plated, thick-film passivated

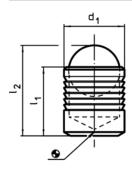

· Roller bearing steel, heat-treated, tempered
