

Taper Clamping Units

23250.0158

Product Description

Material

Body

- Tool steel, hardened, bright

Screw

- Heat-treated steel, tempered, quality 12.9

Spring

- Spring steel wire

Clamping Jaws

- Tool steel, hardened, blackened and ground

Assembly

Can be mounted in a threaded hole or with T-nuts for horizontal or vertical multiple clamping.

Operation

Inserting the socket head screw moves the two clamping chucks outwards and presses the workpieces against a stop. Using the double taper, an additional vertical clamping force will be achieved. Stroke of taper clamping units with M 5 = ±0,5, M 8 = ±0,5, M 12 = ±1 and M 16 = ±1,5. Can be mounted in a threaded hole or with T-nuts for horizontal or vertical multiple clamping.

More information

References

For further taper clamping units please refer to chapter "Multiple Clamping System".

Accessories

T-Nuts EH 23010. have to be purchased separately.
