Adjustable Clamping Levers inner parts from stainless steel, with screw

Product Description

Adjustable clamping levers with rust-proof inner parts. Suitable for multiple applications, e.g. medical environments, chemical industry, and so on.

Material

Lever

· Zinc die-cast, plastic coated, orange similar to RAL 2004, matt structure

Inner parts

• Stainless steel 1.4305

Screw

· Stainless steel 1.4305

Operation

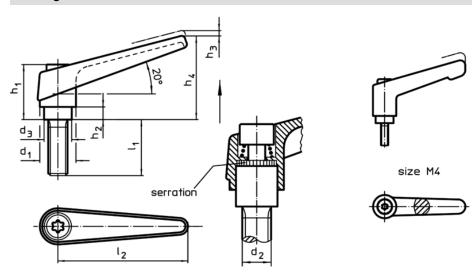

By lifting the lever the serrations are disengaged. The lever can be positioned by the serrations. On releasing the lever, the serrations are automatically re-engaged.

More information

Notes

The screw part can be exchanged.
