Lateral Plungers · smooth, with seal - INCH

2B150.0142

Product Description

To be used for positioning and applying pressure, e.g. during painting and sandblasting. Sealed against chips and dirt.

Material

Seal

• CR

Body

Aluminium

Spring

• Steel, zinc-plated by galvanization

· Steel, case-hardened, zinc-plated by galvanization

Assembly

Installation by pressing in.

Formula for calculating the center distance for the mounting hole:

 $I_0 = z/2 + w + x$

 I_0 = center distance,

y = workpiece height,

w = workpiece length,

x = coordinate dimension,

s = stroke,

z = stop diameter

Calculation dimension x:

y greater than or equal to l_2 - $d_2/2$, then x =

 $d_2/2 - s$

y smaller than l_2 - $d_2/2$, then x =

 $d_2/2 - s - [(I_2 - d_2/2 - y) * 0,123]$

Characteristic

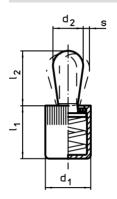

Heavy spring load = spring from steel, zincplated by galvanization
