

WHEEL TOUCH-UP PAINT

- 1 Clean the wheel with a mild soap to degrease.
- 2 Using 100 grit sandpaper, smooth out rough or worn areas on tire. You can use a finer grit to polish as well.
- 3 Clean the area with a cloth and rubbing alcohol to clean off the dust and any remaining oils.
- 4 Apply paint in thin layers. Allow to dry. Repeat until desired look is achieved.

Highly Flammable

Use in Ventilated Area

Keep Away from Children
