## **3.5 Litre Kettle**

**Instruction manual**

**Model:**  
**CK829-A**

## Safety Instructions

- Position on a flat, stable surface.
- A service agent/qualified technician should carry out installation and any repairs if required. Do not remove any components on this product.
- Consult Local and National Standards to comply with the following:
  - Health and Safety at Work Legislation
  - Fire Precautions
  - IEE Wiring Regulations
  - Building Regulations
- Ensure the water level is between the '**MIN**' and '**MAX**' marks. Over filling the kettle may result in boiling water being ejected.
- Always switch off the appliance before lifting, filling or pouring.
- Always use the handle when moving the appliance.
- The body of the appliance becomes hot during use.
- Avoid steam from the spout or when opening the lid.
- Always switch off and disconnect the power supply to the appliance when not in use.
- Keep all packaging away from children. Dispose of the packaging in accordance to the regulations of local authorities.
- If the power cord is damaged, it must be replaced by an Apuro agent or a recommended qualified technician in order to avoid a hazard.
- This appliance is not to be used by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge unless they have been given supervision or instruction concerning use of the appliance in a safe way and understand the hazards involved.
- Children shall be supervised not to play with the appliance.

- DO NOT immerse the appliance in water.
- This appliance is intended to be used in household and similar applications such as:
  - staff kitchen areas in shops, offices and other working environments;
  - farm houses;
  - by clients in hotels, motels and other residential type environments;
  - bed and breakfast type environments.
- **Caution:** This kettle should be used with a residual current device (safety switch) to lessen the risk of scalding or other injury from hot water that may be ejected if the heating element ruptures. Disregard this statement if your home is fitted with a residual current device (safety switch).
- **Caution:** DO NOT operate the kettle on an inclined plane. DO NOT operate the kettle unless the heating element is fully immersed. DO NOT move while the kettle is switched on.
- The heating element surface is subject to residual heat after use.
- Apuro recommend that this appliance should be periodically tested (at least annually) by a Competent Person. Testing should include, but not be limited to: Visual Inspection, Polarity Test, Earth Continuity, Insulation Continuity and Functional Testing.

## Introduction

Please take a few moments to carefully read through this manual. Correct maintenance and operation of this machine will provide the best possible performance from your Apuro product.

## Pack Contents

The following is included:

- Apuro kettle
- Instruction manual

Apuro prides itself on quality and service, ensuring that at the time of unpacking the contents are supplied fully functional and free of damage.

Should you find any damage as a result of transit, please contact your Apuro dealer immediately.

## Operation

**Note: Before using the appliance for the first time fill and boil it twice. Discard the water each time.**

To use:

1. Lift the lid and fill with cold water. Do not exceed the 'MAX' level.
2. Close the lid securely.
3. Connect the power cord to the appliance then to the mains power supply.
4. Push the power switch down to the 'ON' position. The power indicator light turns On and the water will begin to boil.
5. When the water has boiled the switch will flick back up to the 'OFF' position. The power indicator light turns Off.

**Note: The boiling process can be interrupted at any time manually by flicking up the switch.**

**WARNING: There is a danger of scalding from steam. Take care during operation and when opening the lid.**

## Cleaning, Care & Maintenance

**Always turn off and disconnect the appliance from the power supply before cleaning.**

- Use soapy water and a damp cloth to clean the exterior of the appliance.
- Dry thoroughly after cleaning.
- Periodically clean the inside of the appliance using a suitable descaling solution.

### De-scaling

For the best water quality, Apuro recommend that a water filter is installed to the mains water supply, particularly in hard water areas. Doing so will reduce the build up of limescale and contaminants in the water tank thus maintaining energy efficiency and prolonging the life of the appliance.

To de-scale the appliance:

1. Pour a solution of de-scaler and water into the appliance.
2. Brush the interior gently with a soft bristled brush.
3. Discard the solution collected in the kettle.
4. Fill the appliance with clean water and turn back On to flush out the system. Flush out the system thoroughly to remove any de-scaler residue.
5. The appliance is now ready for use.

**Note: Use a suitable de-scaler and always follow the instructions on the packaging.**

**Apuro recommend that this appliance is de-scaled every 3 months or more frequently in hard water areas.**

**IMPORTANT: Failure to de-scale or maintain will invalidate your guarantee.**

## Troubleshooting

A qualified technician must carry out repairs if required.

Fault	Probable Cause	Solution
The unit is not working	The unit is not switched on	Check the unit is plugged in correctly and switched on
	Plug or lead is damaged	Replace Plug or lead
	Mains power supply fault	Check mains power supply

## Technical Specifications

Note: Due to our continuing program of research and development, the specifications herein may be subject to change without notice.

Model	Voltage	Power	Capacity	Weight	Dimensions H x W x D mm
CK829-A	220-240V~, 50Hz/60Hz	2000W	3.5L	1.24kg	244 x 312 x 220

## Electrical Wiring

The plug is to be connected to a suitable mains socket.

This appliance is wired as follows:

- Live wire (coloured brown) to terminal marked L
- Neutral wire (coloured blue) to terminal marked N
- Earth wire (coloured green/yellow) to terminal marked E

This appliance must be earthed.

If in doubt consult a qualified electrician.

Electrical isolation points must be kept clear of any obstructions. In the event of any emergency disconnection being required they must be readily accessible.

## Compliance

The product must not be disposed of as household waste. To help prevent possible harm to human health and/or the environment, the product must be disposed of in an approved and environmentally safe recycling process. For further information on how to dispose of this product correctly, contact the product supplier, or the local authority responsible for waste disposal in your area.

Apuro parts have undergone strict product testing in order to comply with regulatory standards and specifications set by international, independent, and federal authorities.

Apuro products have been approved to carry the following symbol:
