

**INTERACTIVE GAME – PROVIDES INSTANT FEEDBACK!**

# Context Clues Game

**20 INTERACTIVE QUESTIONS INCLUDED!**

**INSTRUCTIONS,  
TERMS OF USE,  
& CREDITS**

**RECORDING  
SHEET**

**START**

**Click START,  
then click on an  
apple to play!**

**HELLO MRS SYKES, JEN SYKES**

# THANK YOU! 😊

## Directions:

1. Open file to play “Slide Show.” Click “Start” on the title page.
2. Choose one of the 20 choices on the page. It automatically shows the question and answer choices.
3. Click on the best choice for instant feedback. After each answer is revealed, click “Next” to go back to the choice page.
4. If you have an interactive whiteboard, you can use the ink feature in PPT or the ink tool for your board. Students can “X” out a question they already answered, so they don’t choose it again. You can also keep score at anytime by selecting “Keep Score” and tallying the points by hand.
5. If you want everyone to participate or you do not have an interactive whiteboard, students can use an individual whiteboard, scrap paper, or copies of the “Recording Sheet” provided on slide 26.
6. Enjoy! 😊

**Always save a master copy of the game** in case student-created changes are accidentally made.
