WIRELESSLY CONTROL ANY CORDED VACUUM WITH ANY TOOL

Easy to install • Compatible with all vacuum brands • Compatible with all power tool brands

With Metabo's CordlessControl Start/Stop Set you no longer need to manually switch on your vacuum cleaner when using it with a power tool. Just plug your vacuum into the CordlessControl socket, plug into the mains, attach the CordlessControl transmitter to the end of your vacuum hose, or to your tool, and it will detect the tool's vibrations and power on the vacuum. Switch off the tool and the vacuum will stop.

EASY SET UP IN SECONDS

- 1.** Plug in the vacuum cleaner with the receiver power socket.

- 2.** Fix the transmitter to the hose behind the nozzle, or directly to the machine with multi-band.

- 3.** Turn vacuum cleaner to "manual" or switch on. Start cordless tool. The vacuum cleaner is switched on/off automatically by the detection of tool vibrations.

Alternatively the vacuum cleaner can be started manually via the remote button on the transmitter.

One battery, many solutions. Cross-brand. 100% Compatibility.
