

STYLISH DESIGNER FURNITURE & HOMEWARES FOR A NICHE MARKET

Why should you stuff those toys under the couch in your living room, or close the kid's bedrooms? We've found the brand you've been looking for.

As one of the first online stockists in Australia, Wiggles Piggles is excited to let you know about our new brand, Deer by Deer. It's received such a buzz across Europe we couldn't wait to get our hands on it.

DANISH DESIGN AT ITS BEST

Done by Deer is a Scandinavian brand that creates living spaces with the modern family in mind. Founded on a goal to create cohesiveness between kids rooms, babies nurseries and adults spaces, the collection achieves this and much more.

At the core of the range are seven animal friends, who through clever use of contemporary colour and graphics, stimulate children's senses. These animal friends reappear across the entire expansive range of Eating, Living and Playing items.

Our first additions from the collection include melamine mealtime tableware and decor pieces that double as stylish storage solutions. This exclusive range is targeted to design conscious Mums and those seeking high quality playful kids toys and furniture.

Our website offers a range of products to suit on-trend kids interiors. Go on, add some Scandinavian style and functionality to your home, and check out our website, www.wigglespigglesonline.com.au and take advantage of our convenient 24/7 online service. What are you waiting for?
