1	This product was amazing, it cleared up my face the same as antibiotics have been doing in the past. I would recommend it to anyone with skin problems on their face.	8/17/2016 9:00 PM
2	The Honevo Rosacea Product has been amazing. I wish I had discovered it earlier. I initially got it to help with my Rosacea but it cleared up my acne too. I have tried so many other products and been to numerous dermatologist appointments but this product has been the best by far at clearing my acne and making my skin smooth. I thought that it would be an inconvenience leaving it on for 15mins each night but I actually look forward to using it now because I know it's making a difference.	8/15/2016 6:40 PM
3	I have found Honevo's Rosacea treatment to be effective in controlling and minimising skin breakouts. Since I began using this products, my breakouts have been less frequent and less severe. It leaves my skin feeling lovely and soft after each application.	8/14/2016 9:24 PM
4	A very good product for the treatment of Rosacea, eases the symptoms and leaves to skin lovely and soft. The natural perfume is really pleasant also.	8/13/2016 6:30 PM
5	Homevo Rosacea helped to improve the Rosacea on the cheek areas of my face. It reduced the redness and the affected areas slowly healed.	8/12/2016 10:44 PM

6	I used this solidly for 2 weeks, applying it morning and night and did not see any change in my skin	8/12/2016 10:36 PM
7	Great product really helped clear my skin	8/12/2016 7:05 PM
8	Honevo rosacea provides the cool, soothing sensation your skin has been craving. It reduces redness and scratchiness instantly and provides on going relief for damaged, sore skin. It is a must try!	8/12/2016 3:13 PM
9	This product is great for teenagey hormonally troubled skin. Used together with the charcoal sponge from kujac we managed to reduce my daughters angry all over acne to the occasional spot.	8/12/2016 12:45 PM
10	Its such a soothing product to use on my skin. I noticed a difference within a few days, and my friends and family noticed it too.	8/12/2016 9:23 AM
11	Honevo helps preventing and Controlling my Rosacea. Next to that i noticed that it helps also very well healing insect bites and Little wounds.	8/12/2016 9:21 AM
12	I was diagnosed with rosacea 2 year ago. Honevo has become part of my daily skin care routine and I have seen a significant improvement in my skin. For me it reduces the red spots. If I have a small breakout I will use it over night just putting a towel on my pillow. It is the only thing I have found non prescription that makes a difference. Also I find it moisturizes my skin. I am a fan and would recommend anyone to give it a try.	8/12/2016 2:22 AM
13	This product worked but you had to use it twice every day which was a bit of a hassle for someone with a busy lifestyle. I love that it is natural and easy to apply.	8/11/2016 9:19 PM
14	I have suffered from rosacea for years, with painful and unsightly red blotches and pustules on my cheeks, nose and eyelids. I had tried all prescription options available with only slight improvement at best. When I first tried Honevo Rosacea I noticed signs of improvement within a week, and by the three week mark my skin was almost clear. I have used it now for about a year and so long as I use it consistently, I only have the occasional minor blemish which clears quickly. I am impressed that not only have the bumps and pustules cleared, but the redness on my nose and cheeks has also settled, so much now that I no longer feel the need to wear heavy makeup every day.	8/11/2016 5:53 PM
15	I have found honevo red effective in controlling redness, evening out my skin tone and controlling small pustules tat I get around my mouth. Controls burning sensation,I have tried other products and have returned to honevo.	8/11/2016 3:54 PM
16	I had less breakouts after I used the product and it made my skin feel soft	8/11/2016 11:14 AM
17	Appeared to work in conjunction with antibiotics	8/11/2016 9:29 AM
18	Honevo is easy to use and is a natural product. It reduces swelling and redness on rosacea outbreaks and other skin disorders (cysts and skin irritations as well as mosquito bites! Honest!!)	8/11/2016 6:10 AM
19	As a rosacia sufferer..drugs are not an option honevo enables me to control my rosacia without the effects of continually taking oral products	8/10/2016 11:23 PM
20	I used the product to help fight red spots cause by Rosacea and found it to be moderately effective. It was useful for drying out and healing small spotes but was less effective in dealing with larger, deeper spots.	8/10/2016 11:17 PM
21	Very gentle on the skin with no irritations which is ideal for sensitive skin. I have much clearer skin now.	8/10/2016 10:00 PM
22	The product is pure and natural. Unfortunately I didn't notice any difference in my skin even after 2 months of use.	8/10/2016 8:46 PM
23	I used Honeva Rosacea preparation as recommended for 3 weeks, with good success, after I stopped using it the spots stayed away for a few months, when they returned I used it again but it did not work. I then tried Clearasil and the spots and redness cleared up really quickly, much faster than they did the first time I used honeva.	8/10/2016 8:39 PM
24	Unfortunately Hoevo did not live up to the hype.	8/10/2016 7:32 PM
25	Easily applied small amount needed and definite improvement after a couple of weeks use. Need to use daily.	8/10/2016 7:12 PM
26	Honevo Rosacea took the irritation, tightness and redness from my face.	8/10/2016 7:10 PM
27	Unfortunately the product didn't make any difference to my Rosacea. I used three tubes but no luck I'm sorry. I have the type that doesn't have the pustules but red a a bit rough in texture and with frequent flushing. This seems to be the least responsive type to Rosez cream also. IPL doesn't seem to be much help either. Can you come up with a miracle for my type, please? My skin did feel softer though.	8/10/2016 6:25 PM
28	Really helps to clear and heal breakouts, skin feels soft and moisturised afterwards. Smells good enough to eat too	8/10/2016 5:52 PM
29	Honevo greatly alleviates the symptoms of rosacea for long-term sufferers. In particular, it much reduces the occurrence and severity of spots and pimples, and improves the texture, tautness and comfort of the skin on face and forehead. It has proved vastly more effective than conventional medical treatment involving long-term antibiotic treatments and Rozex cream, with far less trouble in application, far faster benefits, and no risks of antibiotic resistance side effects, all at much less cost.	8/10/2016 5:37 PM

30	The product was easy to apply onto my face. It is sticky so you aren't able to go to sleep with it on. However, it is not unpleasant to have on the face and is easy to keep it on for longer than the minimum suggested time. I felt this strongly helped with my rosacea symptoms	8/10/2016 4:53 PM
31	unfortunately I didn't find much difference, maybe not quite as red but still visible	8/10/2016 4:35 PM
32	Very Sticky but quite effective	8/10/2016 3:25 PM
33	This product is amazing. My skin has improved considerably since I've added this to my skin routine. Love, love, love it!	8/10/2016 2:55 PM
34	I have been using this product regularly on my face and it sure gets rid of the redness	8/10/2016 2:07 PM
35	Honevo Rosacea is easy to apply (if a little sticky!) and remove. Over the last two weeks I have seen an improvement in my Rosacea. I also suffer with often associated Blepharitis and have noticed that my eyes aren't itchy when I use Honevo Rosacea, almost as if the mites are being prevented from reaching my eyelids. Another bonus is that my skin is left lovely and soft.	8/10/2016 1:57 PM
36	Honevo is very gentle on the skin. Unlike those chemical products you typically receive from the Dermatologist, Honevo WILL NOT make your skin flush. (At least it didn't for mine, and mine flush's easily and doesn't react well to those other products.) I also thought it did a great job of controlling redness. I use it twice daily.	8/10/2016 1:43 PM
37	Honevo is managing to keep rosacea at bay. I used to have to take antibiotics daily to stay clear of rosacea but I decided to stop them and rosacea came back very strongly. I have been using honevo for nearly a year now and have not needed to take antibiotics again. It hasn't gone away, but it's definitely being managed. The best thing is knowing that I'm using a natural product that won't do any damage.	8/10/2016 1:07 PM
38	I initially had good results from using the Honevo and the redness reduced. However after some weeks - months the efficacy was reducing.	8/10/2016 12:51 PM
39	Honevo provided less redness on skin in few weeks. And after regular using during 6 months, I could see much more skin improvement, the redness almost disappeared.	8/10/2016 12:43 PM
40	I'm in my mid-40s and started to suffer breakouts - something I didn't have to deal with as a teen. Some doctors said hormonal acne, others said rosacea. After several years of getting increasingly worse/constant, I didn't know what to do. I wasn't willing to take drugs or birth control, but tried many topical treatments, including herbal supplements. When I switched GPs, he suggested that I try Honevo in combination with other liver supporting herbs. After a few months my skin is finally (mostly) normal again. Still get the occasional cyclical breakout, but not as severe and much more short-lived. The Honevo definitely reduced inflammation and seemed to shorten the breakout cycle. My only complaint is how sticky it is (it's honey - so this is not really a complaint). I have recommended this product to peers and teens - anyone whose skin is clearly unhappy. I believe that supporting the skin from the inside and the out is what made the difference for me. Very, very pleased - a light at the end of the tunnel after years of feeling more and more embarrassed about the appearance of my face.	8/10/2016 12:33 PM
41	It's a sticky experience, but skin feels lovely after a few days and I'm sure I'm noticing a reduction in redness.	8/10/2016 12:16 PM
42	It was hard to tell if the product Mace much difference but also taking the time to use it every day was a challenge for me.	8/10/2016 12:15 PM
43	I have tried all sorts of products for adult acne that begin after my first pregnancy. What I liked about Honevo is how gentle the product is. I saw positive results and At the moment, have no mre need for the product, fingers crossed. Buy will use again if I need to.	8/10/2016 12:12 PM
44	Certainly has reduced the redness on my face that I have suffered with for years. I find the longer I leave it on for the clearer my face becomes	8/10/2016 12:07 PM
45	I found the rosacea product to be very helpful in treating my rosacea which has improved a great deal. The only drawback is it difficult to use in cold weather as it crystallises which makes it tricky to apply .I would be interested in more products containing honey perhaps a moisturiser and a cleanser.	8/8/2016 1:41 PM
46	Smells great, lovely to apply and does leave skin feeling really good, however I only noticed a slight if at all improvement in my rosacea and acne whilst using it.	8/8/2016 1:40 PM
47	Worked really quickly and have been able to manage rosaca without using any medication. Use it daily as part of my routine.	8/8/2016 11:51 AM
48	Simple to use, but need to plan ahead as quite sticky!! Skin is left feeling super soft.	8/8/2016 6:24 AM
49	Great product that leaves my skin feeling and looking great.	8/7/2016 7:30 PM
50	as a sufferer from rosacea, i have been trying out all sorts of products, in honevo i have fond a great natural product the works great for me, honey has long been now as a healer and honevos formulation delivers great results	8/7/2016 12:19 PM

51	I like using a product that works that isn't full of nasty chemicals that do more damage than they fix. Honevo acne leaves my skin feeling smooth and clean. While I still get some spots, they usually clear pretty quickly. The one difficulty I've had with the product is the last couple of tubes have been thick and crystallised and difficult to get the product out and spread it on my face. I am constantly having to heat it to be able to use it, which is frustrating.	8/7/2016 9:55 AM
52	I found it easy to use - just apply to the face twice a day. i applied it 15 mins before i got in the shower in the mornings and 10-30 minutes before bed (when i remembered) It felt a bit sticky but not uncomfortable. I found that the redness diminished significantly, but i did still get some pimply pustules on my nose and occasionally on the cheeks. I found it good enough to go and buy some for my sister who has the same problem and has found it "life changing".	8/6/2016 1:15 PM
53	I honestly do not know whether this product helped me or not. Some days were better, some worse, just as with other products. What I did like about it - to differentiate it from other products -is that it is an all natural moisturizer. With other products, I feel that I am putting chemicals on my face; with this, I felt comfortable.	8/6/2016 5:59 AM
54	Sadly this product didn't work for my rosacea.	8/5/2016 10:28 PM
55	Effective treatment for rosacea when used regularly.	8/5/2016 10:27 PM
56	Too early to tell yet. I tried it when I had a severe case of Roscea , pimples the lot. It wasnt doing much so I had to swop over to my antibiotics. Once it is totally clear I will give it another try.	8/5/2016 4:03 PM
57	I used the rosacea honey on my face (cheeks, nose, lip and chin) for several weeks and had no decrease in redness so stopped using it. As I have not used a rosacea product before, Q's 5 and 6 are irrelevant.	8/5/2016 3:08 PM
58	The product is easily applied and seems to be as effective as the antibiotics i was previously taking for the same condition.	8/5/2016 2:35 PM
59	Outstanding product. It transformed my face from an embarrassing highly red pigmented mess into a smooth clear complexion.	8/5/2016 2:04 PM
60	Honevo red is a lovely cleanser that leaves my skin feeling refreshed and repaired.	8/5/2016 12:20 PM
61	Outstanding product.	8/4/2016 9:09 PM
62	I love using such a natural product and feel it has made a great improvement to my rosacea. I'm less worried about looking flushed and feel more confident in how I look - I'd definitely recommend it!	8/4/2016 8:35 PM
63	I have suffered from roseacea for years and thought this would be worth giving a go but unfortunately it did not help at all and I had to get a llong course of Metrodiazanole to clear up the problem.	8/4/2016 7:38 PM
64	Home or is a sweet smelling smooth mask of honey which will clean your skin like never before!	8/4/2016 6:46 PM
65	I love Honevo!! After many years on being on medication for my acne and roseacea it is relief to use a natural product	8/4/2016 5:42 PM
66	I have been using Honevo products for my Rosacea problem for about a year. I enjoy using a 'natural' product such as these. Access and application are easy. I think that my symptoms have eased during my use of the Honevo products.	8/4/2016 5:13 PM
67	At this stage Ive only been using it for a week and can already see some reduction in redness of the affected areas.	8/4/2016 4:31 PM
68	Excellent product. I was using topical antibiotics daily and also oral antibiotics when the Rosacea flared up. Since using Honevo haven't had to use these and my skin is clear. Have just purchased my second tube.	8/4/2016 2:25 PM
69	I purchased Honevo Rosacea not for a condition on my face but rather for a redness problem on my lower leg. While I found the product to be soothing it did not make any change to the skin redness. I interrupted the use in order to have laser treatment on my leg veins with a view that the redness may have been a vein problem. It is a bit early to tell if the \$8000 operation has had any impact but I'm going to go back to using the Honevo as I have half a tube plus an un-opened container of the product. So while it has not worked as I hoped nevertheless it is worth another try! Sorry that I cannot be more positive and I guess the rest of my survey will honestly reflect my experience.	8/4/2016 11:24 AM
70	Noticed some slight positive results after a week of use even though I wasn't always using it twice a day. After several weeks my face wasn't as red as usual. After a period of a few weeks not using it I noticed my face becoming more red and flushed again.	8/4/2016 9:39 AM
71	I tried the Honevo as a replacement for the prescription cream I have used for many years. I followed the instructions to use it for two weeks, then stop. At first the rosacea seemed unchanged, but within a few weeks it flared up significantly, after years of being dormant. I started the Honevo again, but it did not improve the rosacea so I stopped it and went back to my prescription.	8/4/2016 9:34 AM
72	For me Honevo Rosacea has been is a extremely effective treatment. Initially within 2 weeks of starting I noticed a reduction on redness and now over a year later I find I only have to use it occasionally. It has virtually completely reduced my redness and flushing. I am 100% satisfied.	8/4/2016 8:10 AM

73	I've had rosacea for over 20 years and I've been using Metrogel until a few months ago when I read David Pascoe's comment about Honevo honey. I decided to try it, as Metrogel wasn't helping much and the cost kept increasing. After using it for about two weeks I noticed that, although the redness did not disappear, it wasn't as noticeable as before and my face was not itchy anymore, it also hydrated and made my skin very smooth. I don't expect to completely get rid of the redness but it is significantly better than it was.	8/4/2016 3:03 AM
74	I have a gluten allergy related rosacea. If I avoid gluten or have a minor intake, the Honevo Rosacea product calms any minor flares, irritations and burning I experience without using antibiotic products.	8/4/2016 2:19 AM
75	The product did not cure my condition, but noticeably reduced redness and bumps.	8/4/2016 2:12 AM
76	I was excited to receive the Honevo for Rosacea. I tried it for a number of weeks but my condition worsened. The redness increased and the burning sensation never went away. I had to discontinue the product. Since then I had some laser treatments done and was prescribed Rosiver (ivermectin) 1% cream. It seems to be stabilizing.	8/4/2016 1:47 AM
77	Honevo have done a good job at making the product easy to use. It is easy to spread into skin and easy to wash off. I used twice a day for about 30-40 mins. I have diffuse redness from rosacea. I used for about 4-6 weeks, but didn't see any reduction in redness.	8/4/2016 1:16 AM
78	I found the product a little tricky and time consuming to apply and remove. It did appear to work quite well however, reducing redness and impurities.	8/4/2016 12:31 AM
79	I wouldn't recommend this product. Too sticky! Messes the bed linen at night and my wife won't come near me in case she gets a sticky mess over her. During the day looks terrible.	8/4/2016 12:15 AM
80	Did not work for me. I switched from a prescribed product to Honevo because of the cost of the prescription plus having to go to a doctor to get it prescribed. After a month of using the Honevo product I started to get small blisters on my nose. I have since returned to the prescribed product and the blisters have cleared up again.	8/3/2016 11:49 PM
81	Didn't seem to work for me. Used it for 2 months and no real change in my skin.	8/3/2016 11:49 PM
82	I have been using the Rosacea Honevo on my sun damaged arms and have noticed a definite improvement. The scaly raised up skin "lumps" flake off in time. Would get much better results if I was more proactive in regular applications, of this I am sure! Would recommend anyone to give it a go.	8/3/2016 11:03 PM
83	nothing to add	8/3/2016 10:42 PM
84	The only product I have used that keeps my Rosacea under control. I still have flare ups but not as bad.	8/3/2016 10:33 PM
85	Lovely to use. With a beautiful smell. Leaves skin feeling lovely	8/3/2016 9:54 PM
86	Although I still feel that my rosacea is largely affected by diet and not drinking enough water, I do feel that Honevo is a very good product. I have tried it on cold sores and found it excellent.	8/3/2016 9:15 PM
87	Nice to use a 100% natural product that smells delicious! Easy to use, just apply to affected areas and leave on for a minimum of 15 minutes. For best results use twice a day for at least 6 weeks to see a reduction in redness and lumps that you have with rosacea.	8/3/2016 9:04 PM
88	Honevo Acne is definitely the best product I have found for my acne. It reduces the number of pimples as well as making the few remaining disappear faster! It also helps make my skin less red, and makes it feel better. By far the best product I have found for my acne - and I have tried everything - including prescriptions from the doctor.	8/3/2016 8:53 PM
89	I was pleasantly surprised that the product worked very well	8/3/2016 8:49 PM
90	I've been battling with Rosacea for about 2 years and have tried nearly everything on the market and every natural option. Honevo is the only thing I've found that really reduces the redness, I actually notice the difference the next day if I haven't been able to use it.	8/3/2016 8:35 PM
91	I used Honevo as per instructions for 3 weeks and had no difference to my Rosacea so it just didn't work for me. Very disappointing!	8/3/2016 8:32 PM
92	Brilliant Honevo for Rosacea	8/3/2016 8:25 PM
93	I have tried a lot of different approaches to controlling Rosacea and have found Honevo to be a great option. It is different in that it works for me in a number of ways. 1) I find it cleanses the skin without being harsh. 2) I found that it moisturises the skin such that I do not use moisturiser any more. 3) It calms the skin when it is irritated. 4) It reduces inflammation. 5) it is antibacterial and knocks back spots and infections. I use it 2x per day. I can go 2 hours in the morning and say 15 mins in the evening.	8/3/2016 8:16 PM
94	didn't do anything to help unfortunately - so stopped using it after a few days	8/3/2016 8:10 PM

95	I started using honevo for a small area of Rosacea on my face and noticed an improvement after about 2 weeks. It felt really safe and natural to use. I put it on twice a day and left it on for 10-15 minutes, I will continue to use it when I notice a flare up of Rosacea, especially over winter months.	8/3/2016 8:06 PM
96	Excellent product - my husband has been using it for the last year and not as often as his roseaca has improved.	8/3/2016 7:53 PM
97	Honevo seems to work well to ged rid of acne for me. It's tasty! But it's time consuming and messy.	8/3/2016 7:49 PM
98	This product works exactly as promised. It's reliable and well worth the investment. Love it!	8/3/2016 7:46 PM
99	I got positive results after just 3 weeks. Very pleased with the ongoing look of my skin, especially as I am over 65.	8/3/2016 7:44 PM
100	Honevo acne is a simple to use, gentle, and effective skin soother for people with acne. It has been an integral part of getting my acne under control.	8/3/2016 7:33 PM
101	Sweet as honey, easy to use and good enough to eat! A natural product that helps the redness disappear. Use it as a mask morning and night for 15mins and you will see the difference, the redness goes and you have healthy skin - without the redness.	8/3/2016 7:28 PM
102	Very effective for my Rosacea redness. I use it twice a day, second tube and the redness on my chest, cheeks and nose is fading. Very nice smell. The price is bit to high for a long term use.	8/3/2016 7:24 PM
103	natural product I take now for quite a while but my purple veins in my face receding more and more . still have the blushing with certain foods and climate aggressors, but would not do without it. tried many other orthodox treatments before and nothing is removing my veins. love Honeyvo	8/3/2016 7:06 PM
104	I found Honevo helped reduce the inflammation of Rosacea	8/3/2016 7:03 PM
105	I started using the product for rosacea but like anything else I've used, it only make it worse, but took longer, bout three weeks, before it started getting inflamed. I was really disappointed as it seemed like a good product and felt good on my skin.	8/3/2016 6:31 PM
106	Marked improvement within one day of use during a quite bad flare-up. Definitely helps with irritation.	8/3/2016 6:25 PM
107	I have rosacea with flushing and burning of my skin that leads to having dry skin. The honey seems to moisturise my skin and leave it feeling soft. This is a plus as I am trying to restore my skin barrier function. I've had no adverse reaction to using the honey masks and have been using them for 2 weeks. At this point it has had no positive or negative effect on the mild papulopustular rosacea I also have.	8/3/2016 6:19 PM
108	My rosacea papules were unceasing and I had tried several products to try to get them under control. I had seen a video describing the benefits of Kanuka honey for Rosacea and so figured it was worth a shot. I was amazed at how quickly my papules healed. I'm so happy to finally have found something that provides relief.	8/3/2016 6:19 PM
109	Soothes and calms. Amazing product. A god send. The longer you leave it on the better it works.	8/3/2016 6:03 PM
110	It's a product that has given me more self confidence. It greatly reduces the irritation and leaves my skin feeling relaxed	8/3/2016 5:59 PM
111	Great product. Would recommend it to others.	8/3/2016 5:20 PM
112	I found Honevo helps with my rosacea better than any product I have used on the past. I only use it when my rosacea flares up, twice daily, and it seems to settle things down quickly. I leave it on for 10 to 30 minutes each application then wash it off and moisturise. I highly recommend it.	8/3/2016 5:18 PM
113	8/3/2016 4:57 PM
114	I am hopeful it will work. Still early days. And not really seeing the results as yet. sults as yet.	8/3/2016 4:49 PM
115	After using Honevo for facial redness I have found it to be a good product it has helped reduce redness on my red cheeks	8/3/2016 4:46 PM
116	Unfortunately this product didn't work for me ,I found it sticky and uncomfortable and nothing changed with my condition	8/3/2016 4:42 PM
117	My experience with Honevo Acne was great. Note that my acne wasn't severe or anything but I used to get some pimples on my nose and forehead. In the beginning I loved it and used it in the morning and at night. I saw pretty good results and my acne noticeably went down, It was a little annoying as I kept accidentally touching my face but that's my fault. I have sort of stopped using it now because I changed my diet and my acne has gone down BUT whenever I get a pimple that pops or I pop it, just put a bit on it and it makes it dramatically less red and noticeable!	8/3/2016 4:40 PM
118	This product is great! It does exactly what it says it will. You have to be persistent and use it morning and night though otherwise it doesn't work as well. Its great that it doesn't dry your skin out like so many other products do.	8/3/2016 4:17 PM
119	I found this product to be very soothing when my skin was red and inflamed.	8/3/2016 4:16 PM

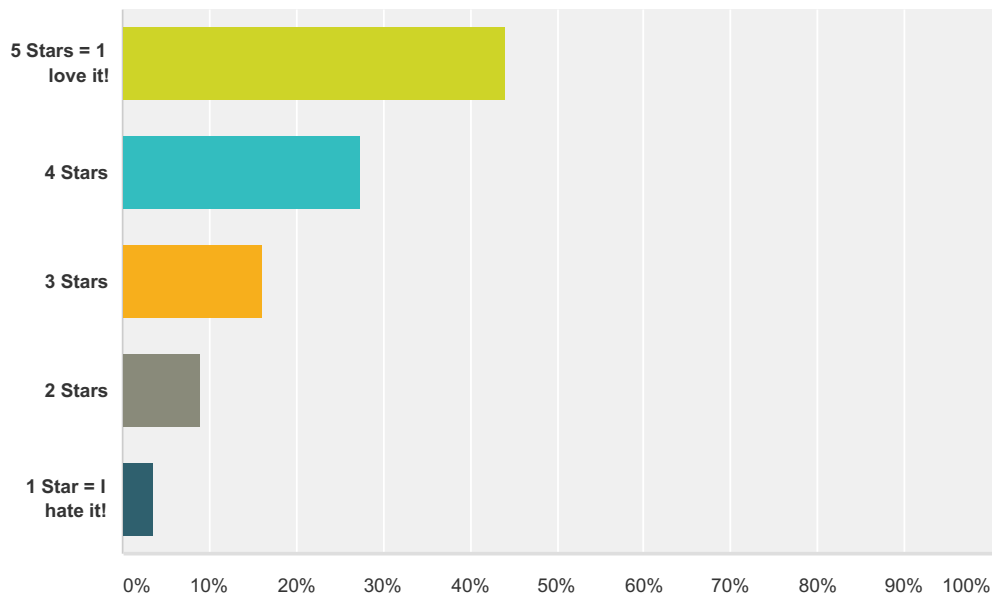

120	Its not an overnight results - it helped to slow down the reduce of Rosacea and Acne and the product lasted a long time. I used it every morning for the last 3 months - I love the smell of honey and making my skin smooth.	8/3/2016 4:06 PM
121	Honevo reduced inflammation & is a good product. However, after a month or so it became less effective, & I don't use it now, as it turns out I don't have rosacea, my skin issues are caused by food intolerances. I would still recommend it though.	8/3/2016 3:56 PM
122	Useless	8/3/2016 3:55 PM
123	It hasn't cleared up the problem but it has helped and has been a useful alternative to other treatments and at least i know it cannot do me any harm.	8/3/2016 3:52 PM
124	Very impressed with the results. Just find it so sticky to apply.	8/3/2016 3:52 PM
125	Have tried prescription products from my doctor which have made no improvements but the Honevo seems to reduce my symptoms	8/3/2016 3:44 PM
126	Easy to use, totally natural and edible!!	8/3/2016 3:40 PM
127	I purchased this to help with the redness in my face. There wasn't a heap of reviews online outside of what was written on the site itself so I took the plunge to try it anyway. The product smells, looks and feels like honey and is super sticky on your skin. It didn't make the rosacea worse and it was very easy to remove with water and a cloth.	8/3/2016 3:36 PM
128	I have suffered from Rosacea around my nose and chin for 5 years and have taken numerous courses of antibiotics in the past to try and eliminate it. These cleared the Rosacea up for a few months at a time before it returned, so then I had to repeat a month long course of antibiotics each time. I read about Honevo in a news article and gave it a try. I was very impressed with the results. The Rosacea cleared up within 10 days and NEVER came back. I have since recommended it to a friend who also had successful results for another type of skin condition.	8/3/2016 3:27 PM
129	After fabulous results with clearing pimples, even those just beginning, and finally solving a painful in grown hair issue this is now my go to product for any skin infections.	8/3/2016 3:23 PM
130	This product has reduced redness and inflamation. It is lovely to use and leaves my skin feeling moisturised.	8/3/2016 3:21 PM
131	I used this product as prescribed - two 15 minute masks a day for two weeks and noticed after a week a visible improvement in my rosacea. I now use it once a week as a preventative treatment.	8/3/2016 3:17 PM
132	I love my Honevo acne! It helps keep my acne down as well as reducing overall redness in my face. If I use it constantly twice a day it works a treat and when I forget to put it on for a while or go away without it I find I break out much more easily, so it definitely is working. I do still get some spots but overall I feel a lot better about my skin, I use it in conjunction with a pore minimising mask because this is something I am also self conscious about. As it is a natural honey product I feel great using it regularly as I know it is not damaging. While my first Honevo acne was very smooth and easy to apply when I repurchased it was a lot more grainy and difficult to spread evenly so I have to make sure that it is warm before I put it on my face. Apart from that I love my Honevo.	8/3/2016 3:16 PM
133	Honevo is quite sticky on the skin but fortunately I was using it only on a small area so there were no problems with it coming off on the pillowcase at night. I used it for about a week, morning and night, before I began to notice a difference in an area of thickening skin. I used it for about 6 weeks and then stopped as the thickened skin had disappeared. I now use it occasionally for 1-2 weeks as 'maintenance'.	8/3/2016 2:57 PM
134	Honevo Red is a natural safe alternative to steroid lotions & acne creams. I had severe facial redness with pimple lumps, swelling & a burning feeling that steroids & antibiotics did not help with & acne cream aggravated my sensitive skin. The instant I applied Honevo the burning eased. Leaving it on overnight has been the best treatment for me. Continued consistent daily use is best & patience as it will take time to heal. I hate to think how I would have coped without Honevo, not only has it saved my face, but also my mental health.	8/3/2016 2:56 PM
135	Honevo Rosacea ointment applied twice-daily for several weeks did noticeably reduce my rosacea; it didn't eliminate it but after I stopped using it the improvement was sustained.	8/3/2016 2:56 PM
136	I have used Honevo Rosacea product I found it helped with my Rosacea, the only draw back is the stickiness when touching your face by accident, if you don't lay it on thick it won't drip down your face	8/3/2016 2:52 PM
137	Uses this product for about a month - not quite finished. Amazing - the redness on my nose and cheeks has lessened and I don't get any breakouts any more. Would recommend to anyone.	8/3/2016 2:46 PM
138	Honevo made my skin look and feel really good, but to me did,nt reduce the redness I have on my face,,but hey..maybe I need to use it for a longer period of time	8/3/2016 2:45 PM
139	Rosacea redness has improved but pustules are still developing. What's worse is that pimples are erupting down my neck instead of on my cheeks.	8/3/2016 2:32 PM
140	Honevo has supported me to have clearer skin and feel more confident about myself.	8/3/2016 2:32 PM

141	This product is fantastic and changed my life!! My skin was dramatically better in just one week.	8/3/2016 2:22 PM
142	Honevo for Rosacea works like nothing else does that I've tried in the past.	8/3/2016 2:21 PM
143	Didn't really see any results. Time consuming and sticky!	8/3/2016 2:20 PM
144	I have found your product has cleared up infection and it has removed redness associated with Rosacea.	8/3/2016 2:16 PM
145	I found it very good at first, but I used it for quite a while and started to wonder if it had introduced a new skin complaint. So I started off around Sep 2015, used it twice a day for 10 mins or more, quite religiously, till sometime in Jan 2016 I think. I had some problems with acne and it seemed that this improved and also healing was faster, but it didn't go away altogether. As time went on I started getting what I assume was some weird thing with water retention on the face - it made spots like acne, but it seemed like it was a reservoir of something under pressure and I think that something was just water. They would be a nuisance and just as unsightly as acne. Eventually I stopped using honevo and tried tea-tree oil, which seemed fairly effective, and then by about June/July I got some clearasil. For the last four weeks since then, things have been much better. So I don't know whether I've had a series of different products solving some problems but creating others, or whether clearasil is the best, or whether I just had some complaint that has cleared up naturally. Apologies that I can't be definite, but I did think honey was doing really well at first, and then started to get suspicious about longer-term use. By the way I also gave it to a friend who had a tick bite, and it did an impressive job of taking down the inflammation: he left it on for a few hours and it seemed to massively decrease the redness and swelling (though it might also have been because having honey on it stops you scratching!!) Thanks for asking.	8/3/2016 2:12 PM
146	The Honevo Rosacea has been helpful in improving the appearance of my skin. The Rosacea is not nearly as obvious and I find that I can manage this skin condition with Honevo Rosacea. After using the product twice daily as directed for several weeks I found that I could use it less often and still maintain the good results I experienced initially. I would recommend this product to anyone suffering from Rosacea.	8/3/2016 2:09 PM
147	I tried this product hoping it would help with my acne rosacea. i used it for about a month along with an antibacterial wash as suggested. there was little to no improvement of the acne or redness although it did help with my really dry skin.	8/3/2016 2:05 PM
148	Have used for two weeks now, no lessening in redness or outbreaks across my cheeks and nose.	8/3/2016 2:05 PM
149	So if you are interested in efficacy of your product and not just in "sales" you should know the following: I have purchased a large amount of your Honevo product over the last year. The important fact is that I have used it for 240 days twice a day – without fail. In the early days – after day 21 and before day 120 it worked well. After that time it has some effect in reduction of the white headed spots but it is not consistent – so I presume it's efficacy works short term. I have four more tubes of your product left and will continue using it for now but will cease soon when I will try a new face mask programme for a period of 2 months after which I will reassess the situation and then probably recommence the Honevo in the hope of gaining the benefits I first derived from your product .	8/3/2016 2:04 PM
150	Quick results	8/3/2016 2:04 PM
151	Easy to use reduces redness quickly	8/3/2016 2:04 PM
152	As a teenager I struggled with bad skin. When I was 39 I began to get bad pimples. I saw on the news that Honevo had had really good results with treating acne. I tried it and was amazed. Not only did it clear my pimples in less than 24 hours. After using for about two months I now have no pimples again!! wish I had had this product when I was young. I now buy it for my 15 year old. Amazing stuff. Also incredibly good value and lasts for ages !!!	8/3/2016 2:03 PM
153	I love this product. My skin is sensitive and oily, and went through a red, sore stage - I was afraid of using any products in case it inflamed my skin even more. The Honevo mask I brought was calming and soothing, and I trust and use this product all the time now.	8/3/2016 2:03 PM
154	Didn't work for me but I use it as a lip cover as it seems to prevent cold sores!	8/3/2016 2:02 PM
155	Excellent product delivering its stated promises and effect of reduced redness and smoothness of skin. Improved complexion in short time frame seen, results obvious and pleasing, and easy to use/implement	8/3/2016 2:01 PM
156	The honevo product stands out as something different. I used it in a mask format an found that my skin was smoother after using it and noticed redness was less. Bonus it smells nice too! I love that I'm treating my skin with ingredients that are good enough to eat	7/18/2016 6:37 PM
157	Excellent. I use it every day. It makes a big difference to my skin.	7/18/2016 10:01 AM
158	Helps with dryness and redness. Soothing on the skin.	7/14/2016 5:04 AM
159	Brilliant, works as advertised	7/9/2016 9:32 PM
160	The product is the best I have tried for healing and clearing my skin. I like that it's made from natural substances.	7/8/2016 7:59 PM

161	Easy to use, apply and wash off. Calms the face. You feel as though you are doing something really positive but really natural to help your skin	7/8/2016 7:26 PM
162	Simple effective and so easy to use and it works	7/8/2016 6:41 PM
163	Over many years I have tried many different treatments to combat my Rosacea. Chemical treatments, IPL, other so called natural products, nothing has been as effective as Honevo. I love how the product is completely natural, my skin is calm and clear. I love using this product, my skin just feels so soft and the redness which has plagued me for years is reducing.	7/2/2016 11:54 AM
164	this product does not totally get rid of rosacea but it does make a huge difference to how my skin looks and feels	7/1/2016 3:58 PM
165	product has been of great benefit in calming my skin & also reducing redness on nose & cheeks .	7/1/2016 3:22 PM
166	I have been using this product for the last 2 weeks and found a reduction in redness. It is very easy to use and great that it's a natural product!	7/1/2016 2:22 PM
167	I use Honevo Rosacea daily to keep rosacea under control. In my case I have found the medication (Rosex gel) prescribed by my skin specialist does not control rosacea and prevent outbreaks. However when I use Honevo Rosacea in conjunction with Rosex gel I manage to keep outbreaks to a minimum and if flare ups occur, they heal much faster thanks to the antiseptic and anti inflammatory properties of Honevo Rosacea.	7/1/2016 1:35 PM
168	It's an unusual skin product because it's so sticky, but at least it smells great! The product seemed to work very quickly (overnight) with the area it was applied to.	7/1/2016 12:57 PM

Q3 Also similar to what you might provide to an on-line product review (similar to what you might see on product websites), how many stars would you give the Honevo® product you used, to signify how you feel about it overall? (Select one response)
