# Electric Industrial Ovens

## **General Features:**

- Quality Construction for long life
- Stainless Steel Front Standard
   Stainless top & sides available (T430)
- Heavy Duty Steel Deck with flanged sides (16AL)
- Full Range Digital Thermostat 150°F - 550°F (65°C - 288°C) Precise temperature control
- Space Saver Only 56" wide
- Stackable
   Multiple options for flexibility
- Aluminized Interior Standard
- Solid State Relay Silent operation
- Easily Serviceable
   Most controls can be replaced from the front of the unit
- Power
   Electric
   Single phase standard
   Three phase optional
- Specific Features
  of the CE42IESC listed on back

### **Durable Construction**

The CE42ISC is built with *prime 20-gauge cold-rolled top* and sides with a 14-gauge base. The *interior is made of Armco* Type 1, 20-gauge aluminized steel. The CE42ISC comes standard with stainless steel front, or optional all stainless steel finish. The stainless steel is made of high quality, 18-gauge 430 stainless; the door interior is 18 gauge stainless.

### **Energy Efficiency**

The CW42I is powered by eight (8) 2,000w elements which increases efficiency and recovery rate.

### **Capacity**

The CE42ISC deck size measures 42"x32"x7" (2). The CE42ISC will hold four (4) 18"x26" trays. Heating time will vary according to product.

### **Space Saver**

Because the controls are on the side, the CE42ISC requires *less installation space* than our competition. This enables you to free up valuable workspace. The actual width needed is a mere 56" for two 42"x32" decks, almost a foot less than the competition. The CE42ISC *can be converted in to a CE43ISC by stacking*, either initially or after your business grows. This option gives you three 42"x32" decks in only 56" of space.

### **Design Plus**

The CE42ISC has the *controls on the side for ease of operation and space savings*. This also places the controls in their own *air-conditioned area* so they are not affected by outside influences.
