The little dino and Penny spend time together all over the museum, and when Penny doesn't see a giant adult dinosaur lumbering around, she realizes Pip—as she's named him—must be on his own. ***Crash from Outer Space: Unraveling the Mystery of Flying Saucers, Alien Beings, and Roswell*, (Hardcover) \$19.99**

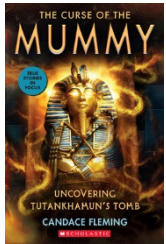

Award-winning author Candace Fleming sets her gaze on the mystery at Roswell, New Mexico, and the "crash from outer space" that set the United States on edge for decades.

In 1947, during the early years of the Cold War, a field in Roswell, New Mexico was disturbed by a strange crash and smattering of debris. Some say the bodies of extraterrestrial beings were strewn across the ground, that a UFO had crashed there, and that the government was covering up the evidence in a massive conspiracy.

But what really happened at Roswell?

The infamous "crash from outer space" has become a fixture in our culture, inspiring a surge of UFO sightings and conspiracy theories. But at its heart is the story of military scientists, a city on the brink of the Cold War, and a debris field scattered with mystery. What was it that actually crashed at Roswell? Were alien bodies found? Was it Russian spies? Secret military technology? And did the government try to hide what they found?

***The Curse of the Mummy: Uncovering Tutankhamun's Tomb* (Paperback) \$10.99**

Award-winning and critically acclaimed author Candace Fleming presents the edge-of-your-seat true story of the search for Tutankhamun's tomb, the Western public's belief that the dig was cursed, and the battle for ownership of the treasures within.

During the reign of the New Kingdom of Egypt, the boy pharaoh Tutankhamun ruled and died tragically young. In order to send him on his way into the afterlife, his tomb was filled with every treasure he would need after death. And then, it was lost to time, buried in the sands of the Valley of the Kings.

His tomb was also said to be cursed.

Centuries later, as Egypt-mania gripped Europe, two Brits -- a rich earl with a habit for gambling and a disreputable, determined archeologist -- worked for years to rediscover and open Tutankhamun's tomb. But once it was uncovered, would ancient powers take their revenge for disturbing and even looting the pharaoh's resting place? What else could explain the mysterious illnesses, accidents, and deaths that began once it was found?
