

NEX TIME

Exclusive USA distributor

N E X T I M E

NeXtime produces innovative, bold and playful Dutch-designed timepieces. We pride ourselves in offering the best integration of design excellence with functionality.

NeXtime offers a broad clock collection covering different price segments with the highest quality standards. We are inspired by interior trends, new technologies and are working with surprising material combinations. We are always adapting to the latest trends and have a passion for design. We make clocks unique but affordable!

NeXtime's heritage is built in over 50 years! 50 years is a long time and many things have changed in the world but one thing stays constant... Time keeps Ticking... and ticking creates many Moments.

NeXtime clocks are sold in many countries around the Globe. We are proud to be represented in the US exclusively by UNEK Goods.

Station Double

The NeXtime "Station Double" is a double-sided wall clock made of aluminum and glass. This station clock has two clock faces, a standard to hang the clock anywhere and a silent movement. You can view the time from two different angles!

Station Double • 3217

17.5 x 15 x 5.1" \varnothing • Aluminium • Arabic
Two sided clock

Easy assembling.
Clocks are connected to
the frame by magnets

This is a wall clock that provides 2 functions: Time and Tide status. When we talk about tide status, it is more precisely about the time remaining before low tide and high tide. A tide clock is a useful device which allows you to know in the twinkling of an eye if the tide is going down or up at your sea port or surf spot. Great reference for fishing, boating, surfing and all kinds of water activities!

Tide • 4321BL

Technoline WL 1030 Air Quality Monitor incl thermometer and hygrometer

The WL1025 Air Quality Monitor features a high quality non-dispersive infrared (NDIR) gas sensor with a CO2 measuring range up to 5000 ppm and provides ventilation advice based on the CO2 concentration in the air. In addition, this unit also measures air humidity and temperature. This air quality monitor will give out a warning when the air quality is insufficient and tells you when you need to ventilate the room. The CO2 meter will show the current air quality values as well as ventilation advice with text and colored blocks. The WL1025 is ideal for at home, at the office, or at other public buildings such as hairdressers, schools, gyms, museums, sport clubs etc. High CO2 levels in the air reduces people's concentration and performances and makes it easier for viruses to spread. Regular and timely ventilation is recommended to improve the indoor climate and to maintain good health!

- Dimensions: 3.19" x 3.19" x 0.95"
- Power Supply: USB Cable (included)
- Built-in battery (a fully charged battery works for 5 hours)
- Temperature Range: -9.9°C - 50°C / -146.2°F to 122°F
- Humidity Range: 1% - 99% RH
- Display background adjustable in 4 brightness levels

Outdoor clocks

When you're enjoying the outdoors you can now keep track of time, humidity and temperature without having to go back in the house. Let's take a look at our garden collection for outdoor use that are functional and ornamental at the same time.
