

## IWC – A very fine and attractive stainless steel Portofino Ref. 3513

IWC's Portofino line reflects classic design in its simplicity. Producing a watch where "less is more" is never simple and can reflect true aesthetic achievement.

The especially popular but small Reference 3513, the basic Portofino automatic with date, evolved in the mid-2000s to larger models. Encased in an elegant 34mm diameter case, the white lacquer dial with silver applied stick indexes with date certainly exudes an attractive charm.

The present Portofino ref. 3513-1 offered in an attractive appearance is surely a fine representation of legendary purity.
