INNOVATION FR

RECTANGLE WALL BRUSH

- Maximum paint pick-up & release for continuous coverage.
- Square ferrule allows for even distribution of pressure.
- For the traditional painter who likes a heavier brush.
- The larger sizes are ideal for painting ceilings, walls & doors. The smaller for detail & trim work.

OVAL WALL BRUSH

- Continuous coverage with increased precision & control.
- Oval ferrule holds & releases more for solid coverage & less dripping.
- The larger sizes are ideal for painting ceilings, walls & doors. The smaller for detail & trim work.

OVAL SASH CUTTER

- Designed specifically for increased precision & control when cutting in & detail work.
- Longer handle for greater balance & control.
- Perfect for windows, cornices & architraves.

OVAL ANGLE CUTTER

- Increased control for precise cutting in with the sharpest attention to detail
- Longer handle for greater balance & control.
- Ideal for cutting in & mouldings.

FROM A TRUSTED FRIEND

Extra-long tapered filament tops to create the finest finish with no brush marks.

Hand formed chisel provides extra sharp & accurate cutting in.

Specifically bi-colour dyed Solid Round Tapered top quality synthetic filaments provide proper resilience & paint flow, with an ultra-light touch at the tip for smooth application with permanent colour fastness.

Durable stainless steel designed for increased strength with quality construction to handle for no gaps and no drip.

Ergonomic, raw & smooth beech wood handle with grip for control & ease of use.

- Maximum paint holding and release for continuous coverage.
- Maintains shape and performance after use.

E4 Mark II designer filament is formulated to lead the market by providing excellent paint coverage and the best professional paint finish on all surfaces.

Created for the professional painter, the blend is a fusion of quality synthetic filaments that work together to achieve an outstanding paint finish.

Best results with premium gloss & satin sheen paints for a smooth professional finish for internal & external applications.

Performance tested with alkyd based, water based & oil based paints.
