

HOW TO BUILD A WOODEN SHED

Before purchasing a shed, remember to check that you have an appropriate space for the product, check all dimensions and make sure that there are no obstructions.

Please be sure that you have a flat, levelled and strong base before building your shed. For help with choosing and building your base please take a look at our [How to Choose the Right Base](#) and [How to Build a Base](#) guides.

What you will need to install:

- Drill (2mm drill)
- Electric Screw Drivers (Philips and flat head)
- Stanley Knife
- Tape Measure
- Hammer
- Spirit Level
- Step Ladder
