EZ Roller-Spinner Universal Wheel

www.morelli.co.uk

Have you had a problem with a car being stuck in park, or with no power? The EZ Roller-Spinner is a universal wheel that provides a unique, one-of-a-kind mobility solution for standard cars or electronic vehicles when the brakes freeze or the vehicle has no power.

Easy to use, bolts onto the vehicle's hub in minutes, and the disabled car can be pushed or pled into the shop or onto a tow truck. Two versions of this universal wheel provide the solution to move most 4, 5, and 6 lug vehicles and work on AWD, FWD, and RWD vehicles.

4 & 5 Lug Bolt Pattern

Size: 22" x 2.5"

Weight: 19 lbs / 10 kg

Max load: 2200 lbs / 1050 kg

Max speed: 5 mph / 8 km

Warranty: 2-year

Bolt pattern: 4 & 5 lug PCD

Centre hub: 74.1 mm

5 & 6 Lug Bolt Pattern

Size: 22" x 2.5"

Weight: 19 lbs / 10 kg

Max load: 2200 lbs / 1050 kg

Max speed: 5 mph / 8 km

Warranty: 2-year

Bolt pattern: 5 & 6 lug PCD

Centre hub: 87.1 mm

Works great outside on inclines, gravel, uneven pavement. There are no extra parts required to attach to your vehicle, as the EZ Roller-Spinner uses the factory nuts and bolts acquired from your vehicle. Capable of supporting vehicles whose hubs are bent positive or negative camber of up to 30 degrees.

Known for its unparalleled strength and durability, the EZ Roller-Spinner features a tyre tread that provides superior traction while the wheel navigates all terrains and surfaces, inside and outside the shop. There is no rolling resistance from bulky, protruding tyre ribs often found on regular universal wheels.
