GYS ATEX Aluminium Dust Extractor

www.morelli.co.uk

The GYSDUST EXTRACTOR is an ATEX certified pneumatic dust-extraction unit for sanding-dust designed specifically for car-body repair.

This brand-new suction system, developed by GYS' expert engineers, combines high suction performance with low air consumption.

ATEX certified at category 3, this appliance is suitable for aluminium sanding dust from car body repairs.

Suitable for use in explosive environments and for using abrasives on aluminium car bodies, with no maintenance required. No moving parts and no filter to clean.

Adjustable sanding pressure in combination with its pressure gauge means this machine can be used with all types of commercial sander.

Team up with the Indasa Orbital Palm Sander – not pictured. Sander shown in the image above is **not** included with this product.

Includes one earth clamp, one 5kg capacity dust bag, and one 5-metre hose.

Specifications

Air flow of 600 l/MN

Air consumption of 340 l/MN

Noise level of 70 dB (A)

Suction power of 1 150 mm H₂O

Hose dimensions Ø 29 mm at a length of 5m
