ABCDEFGHJKLM NOPQRSTUVWXYZ abcdefghijklm nopgistuvwxyz 1234567890

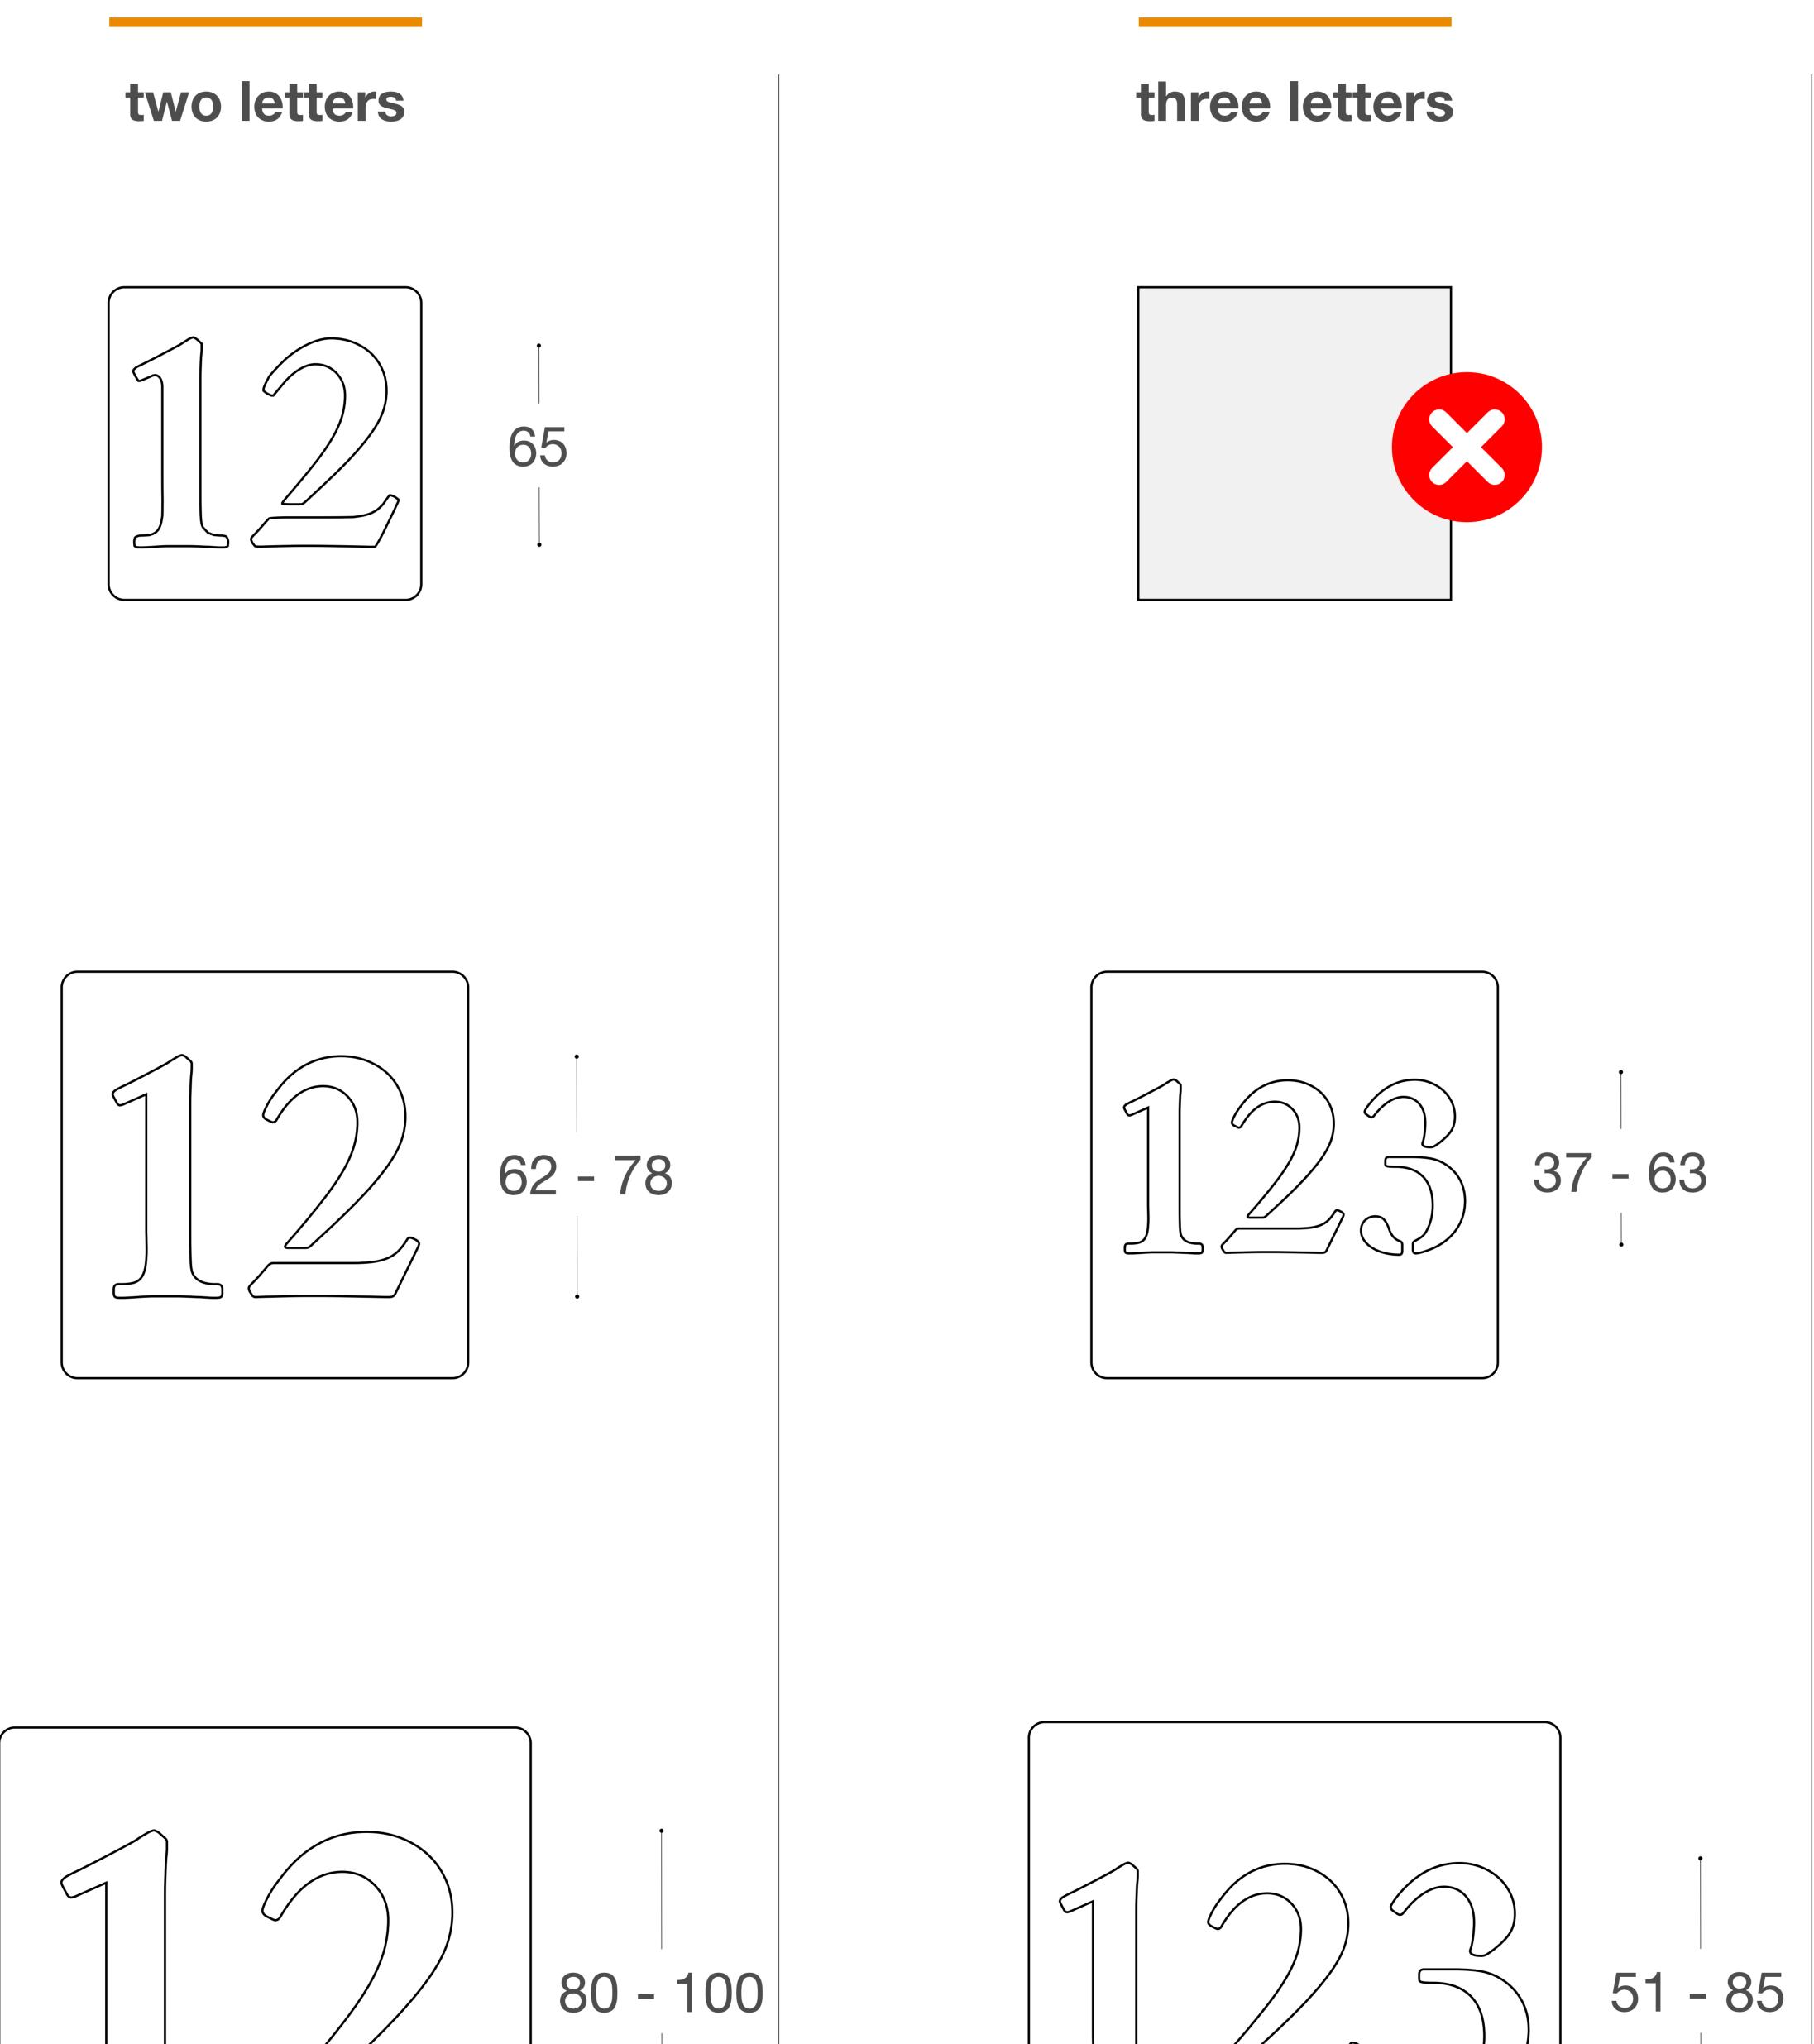

From "manual" the ratio character size - maximum reading distance is 1 cm - 4 meters. In other words, a 1 cm high character can be read up to a maximum distance of 4 meters. Of course the values change proportionally. For example, a character 10 cm high can be read up to a distance of 40 meters. They seem very low values, but try: if your eyesight is normal these proportions are more than acceptable.
