

Simple household eco-swaps for **retailers and hospitality.**

## OUR BEGINNING

**Eco Green Living** emerged as a family business driven by customer demand and the success of its sister brand, Eco Green Communities. The latter, a socially responsible company specializing in Social Value solutions for local authorities and landowners, initially offered certified compostable waste bags to encourage people to responsibly dispose of litter. These eco-conscious communities soon expressed a desire for more sustainable products. In response, Eco Green Living was established in 2020, and by 2021, it proudly introduced its first product – certified compostable Cling Wrap, which garnered recognition as a finalist for the Grocer Innovation Awards.

COMPOSTABLE

CERTIFIED

INNOVATIVE

**84%** OF CUSTOMERS SAY THAT POOR ENVIRONMENTAL PRACTICES WILL ALIENATE THEM FROM A BRAND OR COMPANY

## THE FUTURE

**Fast forward to 2023**, and Eco Green Living has expanded its offerings to meet the growing demands of businesses. The achievements in the retail sector have not only validated its commitment to environmental sustainability but have also provided the resources for extensive testing and product development. Today, the company is eager to collaborate with businesses that share its vision of ushering in meaningful change toward a more sustainable and environmentally conscious future.

# OUR MISSION

**At Eco Green Living,** our mission is to revolutionise everyday commodity items by crafting them from compostable or plant-based materials. We are unwavering in our commitment to ensuring these products not only serve their intended purpose effectively but also carry the certifications and authenticity that our customers deserve.

**“Our ultimate goal is to empower change at its most fundamental level – in the choices people make in their daily lives.”**

78% OF CONSUMERS FEEL THAT SUSTAINABILITY IS IMPORTANT.

55% OF CONSUMERS ARE WILLING TO PAY MORE FOR ECO-FRIENDLY BRANDS.

## OUR COMPOSTABLE PRODUCTS LIFE CYCLE

Renewable corn starch or plant thistle is harvested

Fully compostable/biodegradable resin/PLA/PBAT

Fully compostable bags

No poisonous gas  
No pollution

Decomposed into organic fertiliser/CO2 H2O
