

Haven Aesthetics Gippsland.

Treatment Guide And Price List
July 2024

Welcome To Haven Aesthetics

Our carefully curated range of Cosmetic Aesthetic treatments are designed to enhance your facial features and restore youthfulness and vitality with precision and care.

At Haven Aesthetics, we believe in empowering our clients to embrace their beauty confidently and authentically.

We provide complimentary comprehensive consultations and a personalised approach to aesthetics, we value transparency, safety, professionalism and most importantly natural looking results.

Anti-Wrinkle

What is it?

Anti-wrinkle treatments are a purified protein that temporarily relax the targeted muscles. In doing so this reduces the ability of the muscle to contract so tightly, therefore reducing the creasing in the skin.

What areas does it treat?

This treatment results in a softening of dynamic wrinkles, such as crow's feet, frown lines, and forehead wrinkles however we can also treat the lower face in small doses for a subtle enhancement.

How often?

Every 3-4 months

What is the cost?

From \$129 per area, more information below.

Is there any downtime?

Minimal downtime, chance of a tiny bruise.

Hayfever Relief

What is it?

The hayfever treatment involves spraying a combination of Anti-wrinkle and saline (salt water) into the nose just like a regular nasal spray. No needles are required for this treatment. By temporarily relaxing the receptors in your nasal lining we may alleviate symptoms of hayfever and nasal congestion including nasal stuffiness and runny nose, itching and watering of the eyes and the back of the throat without the need for daily medication.

What areas does it treat?

Nose, for hayfever sufferers.

How often?

Two sessions may be required 6 weeks apart for best results. The effects typically last for 5-7 months and can provide much needed relief during the allergy season.

What is the cost?

\$199 per treatment.

Is there any downtime?

No downtime.

Hyperhidrosis

What is it?

Hyperhidrosis, or excessive sweating, can be effectively treated with Antiwrinkle micro injections. By targeting the sweat glands in the underarms we can temporarily block the release of acetylcholine, a neurotransmitter that stimulates sweat production. This results in a significant reduction in sweat production helping individuals with hyperhidrosis to feel more comfortable and confident in social and professional settings.

What areas does it treat?

Underarms

How often?

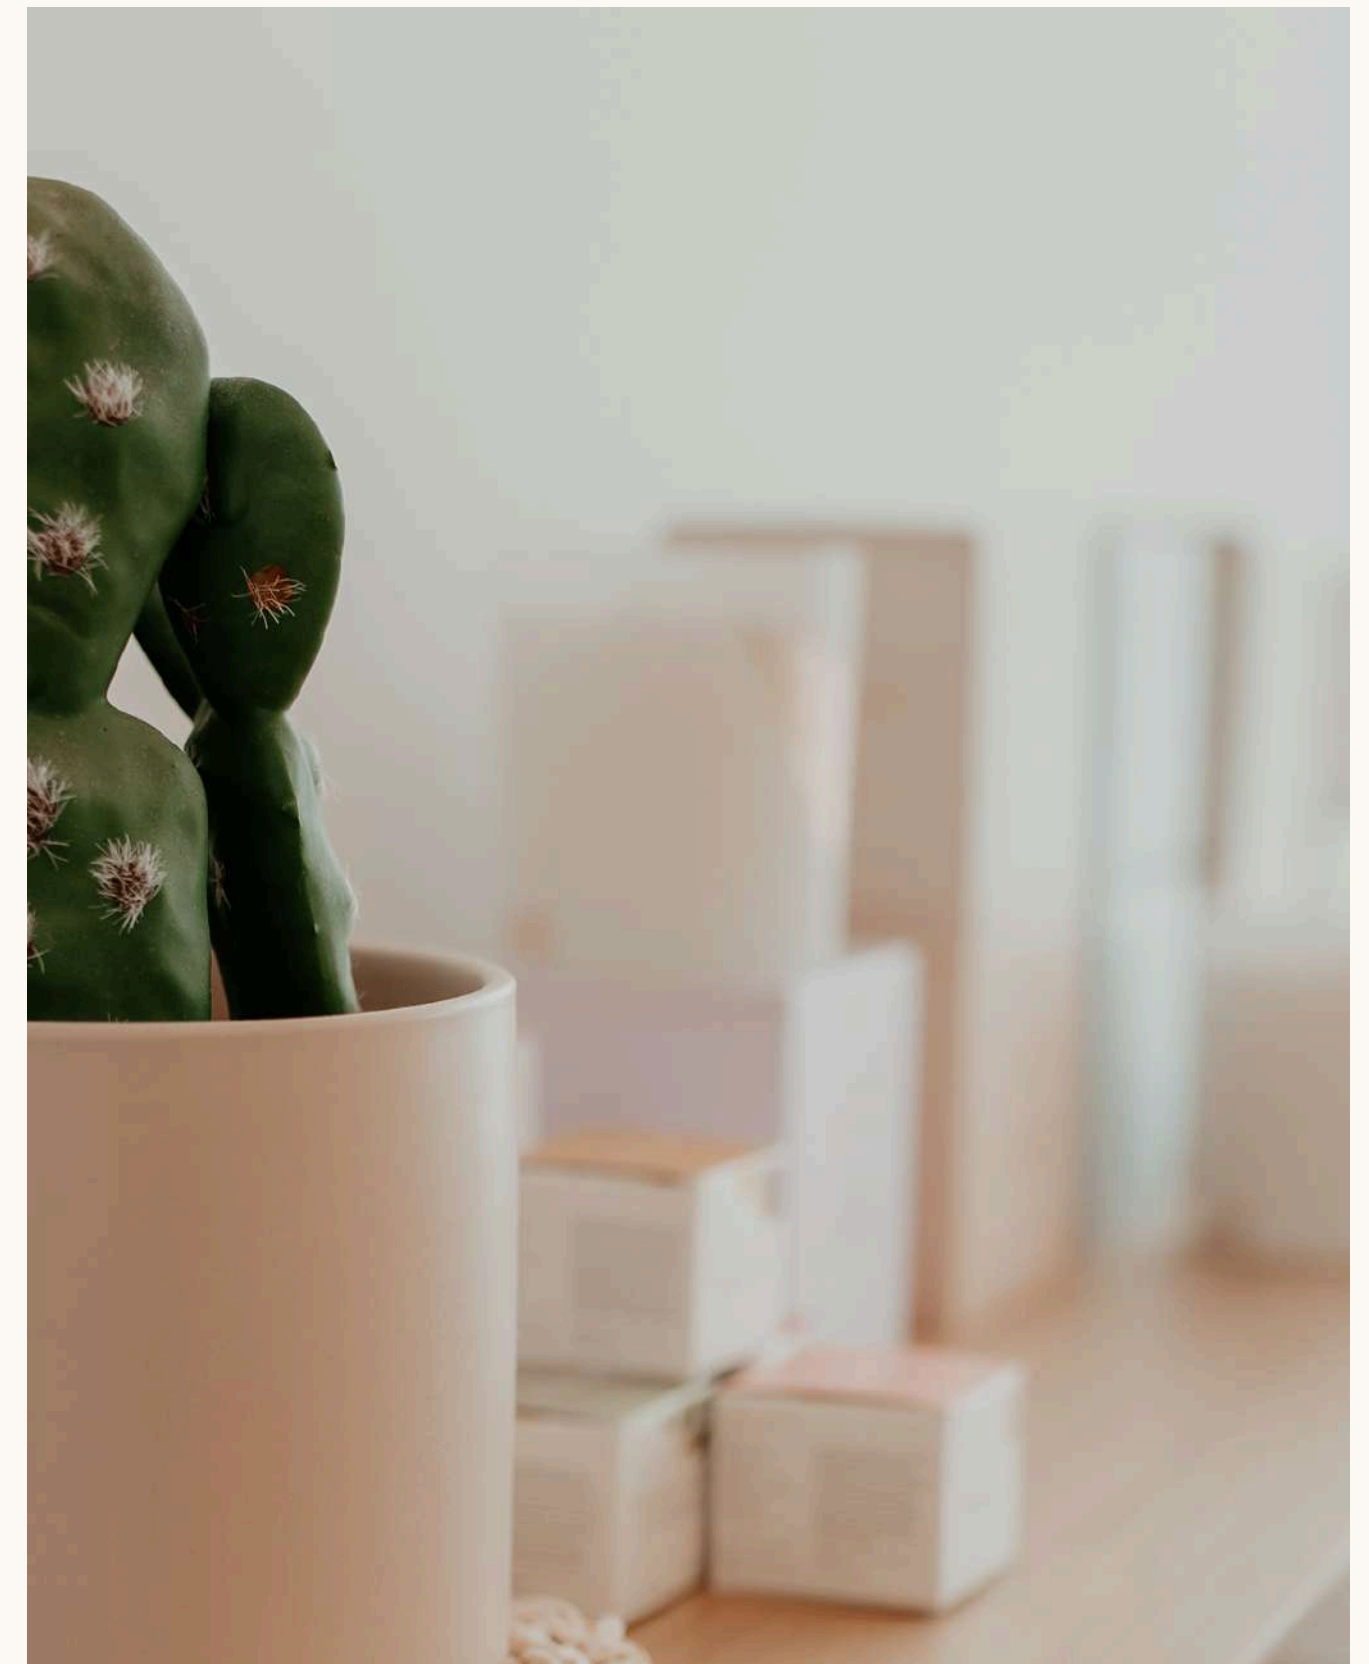

Results typically last up to a year.

What is the cost?

The cost is \$999

Is there any downtime?

Clients can not wear deodorant for one day, however no downtime.

Lip Flip - \$129

Dimpled Chin or DAO - \$129

Gummy Smile - \$129

Dermal Fillers

What is it?

Dermal fillers are an injectable gel made of a Hyaluronic Acid, which is a substance naturally found in our skin. It comes in a range of consistencies and works by either adding volume, strength, structure or hydration to areas that have lost these important components.

What areas does it treat?

Lips, cheekbones, chin, marionettes, restore youthful contours to the face or hydrate and rejuvenate the skins surface.

How often?

The results are immediate and can last anywhere from several months to over a year, keeping in mind these are temporary treatments and require maintenance.

What is the cost?

From \$399, more information below.

Is there any downtime?

Redness, swelling and bruising are normal side effects with these treatments. Further risks will be explained in a comprehensive consultation.

Lip Enhancement

What is it?

Dermal fillers can improve lip symmetry, enhance the lip border, and reduce the appearance of fine lines around the mouth. They are also great for restoration of a mature lip and for hydration.

What areas does it treat?

Lips, lip corners, lip lines

How often?

6-18 months

What is the cost?

\$399-\$549

Is there any downtime?

Redness, swelling, bruising and minor temporary bumps are normal side effects of this treatment. Further risks will be explained in a comprehensive consultation.

Some of our results - Dermal Fillers

Profilo: BioRemodeling

What is it?

This treatment is dubbed the 'Injectable moisturiser' and is one of our most popular treatments for boosting hydration and skin rejuvenation. Unlike traditional dermal fillers, Profilo utilises a unique 'honey like' Hyaluronic acid formulation to deeply hydrate and nourish the skin from within.

What areas does it treat?

Mid and lower face, neck and décolletage.

How often?

2-3 treatments spaced 4 weeks apart, then one session every 4-6 months for maintenance.

What is the cost?

\$800 per treatment or \$1500 for two treatments.

Is there any downtime?

Redness, swelling, bruising and minor temporary bumps are normal side effects of this treatment. Further risks will be explained in a comprehensive consultation.

1ml from \$650.

Fat Dissolving

What is it?

Fat dissolving treatments target stubborn pockets of fat, particularly in areas like the chin, tummy and flanks that are resistant to diet and exercise. This treatment uses an injectable solution containing a synthetic deoxycholic acid, which breaks down fat cells when injected into the targeted area. Over time, the dissolved fat is naturally metabolized and eliminated by the body, resulting in a slimmer and more contoured appearance to the chin and jawline, and overall reduction of fat to the lower abdomen.

What areas does it treat?

Chin, Stomach & Back flanks

How often?

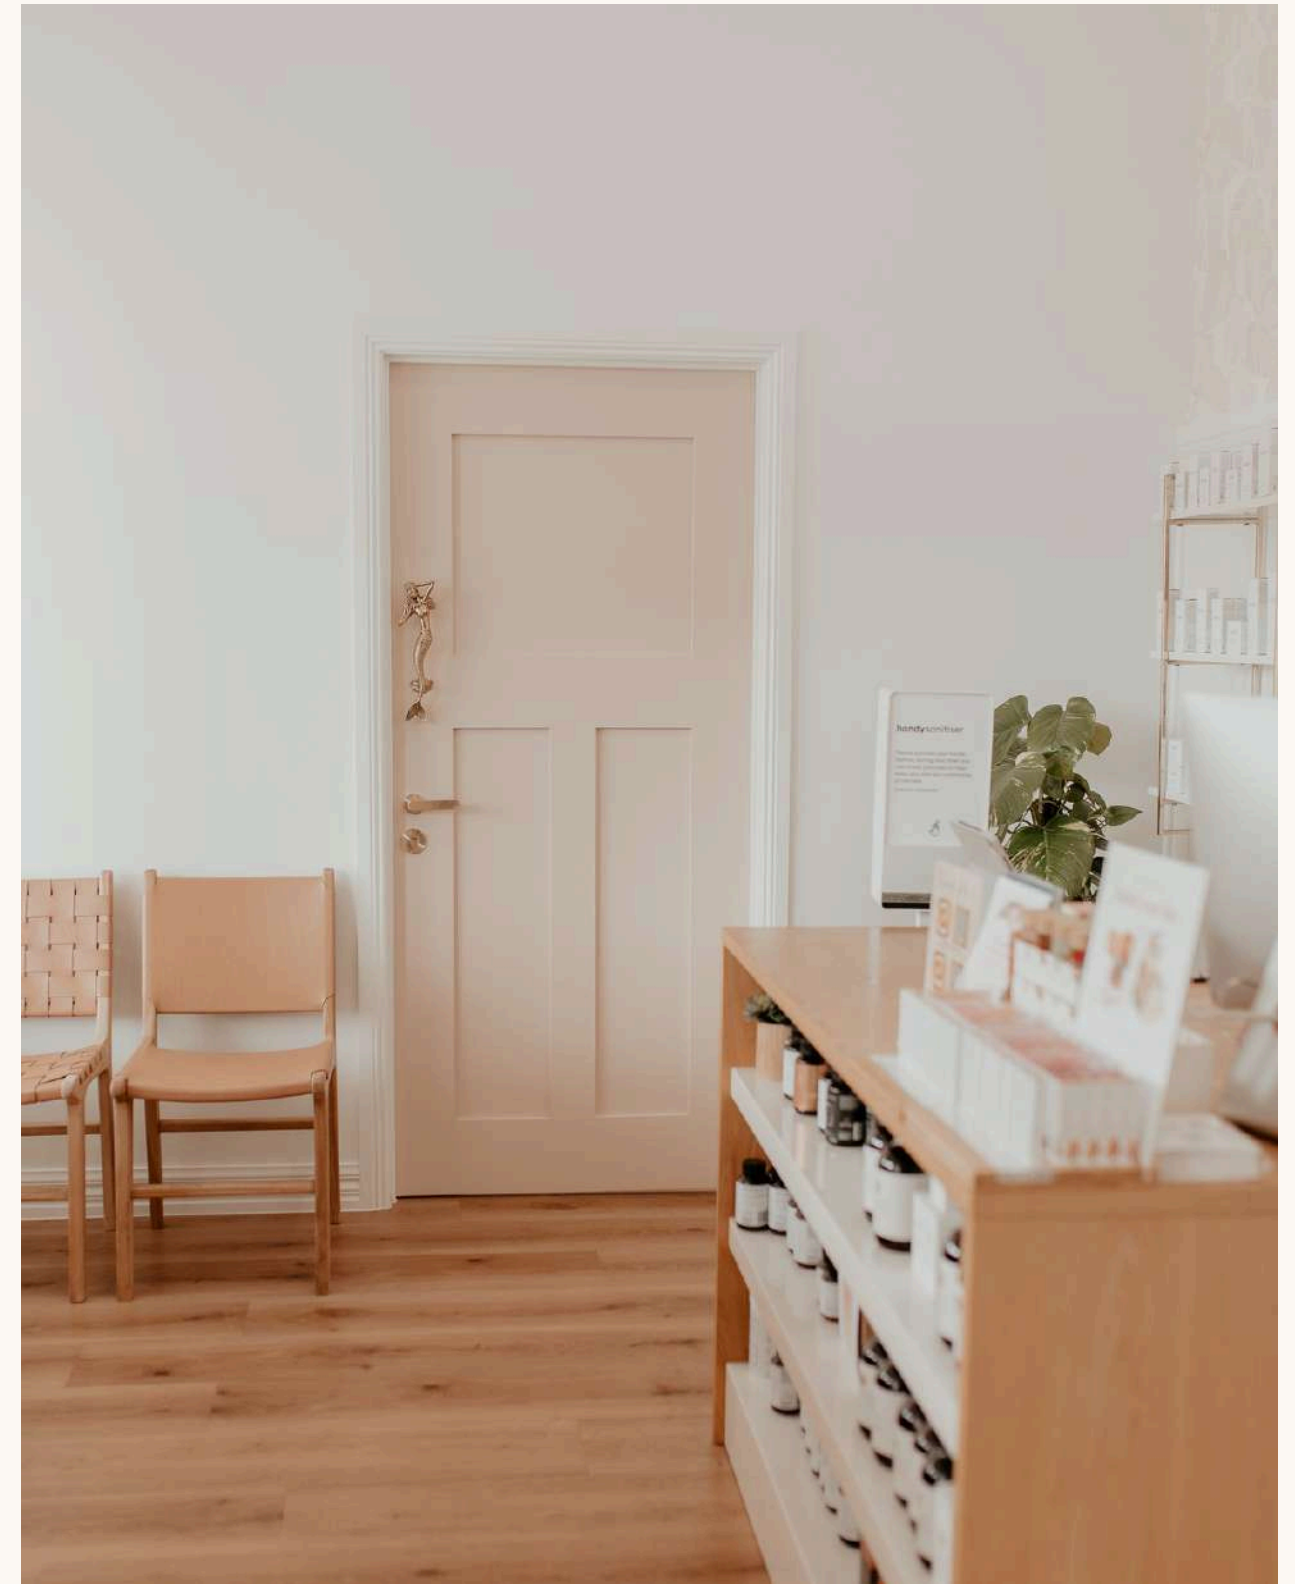

1-3 treatments generally, up to 5 treatments for the stomach.

What is the cost?

\$399 chin, \$699 stomach and flanks per treatment.

Is there any downtime?

2-3 days swelling post treatment, potential for bruising.

& Flanks

\$699

2-5 treatments recommended

Rejuran (i & classic)

What is it?

Rejuran is a skin rejuvenation treatment that harnesses the power of polynucleotide (PN) technology. Derived from salmon DNA it contains nucleotides, which are the building blocks of DNA. When injected into the skin, Rejuran stimulates collagen production, improves skin elasticity, and enhances overall skin texture.

What areas does it treat?

Rejuran i 1ml is our treatment of choice for under eye concerns.

Rejuran Classic 2ml can improve scarring, uneven skin texture and skin repair, it can also be used on the hands.

How often?

Rejuran i 1ml – 1ml x 3 sessions spaced 2-3 weeks apart then one treatment every 6-12 months.

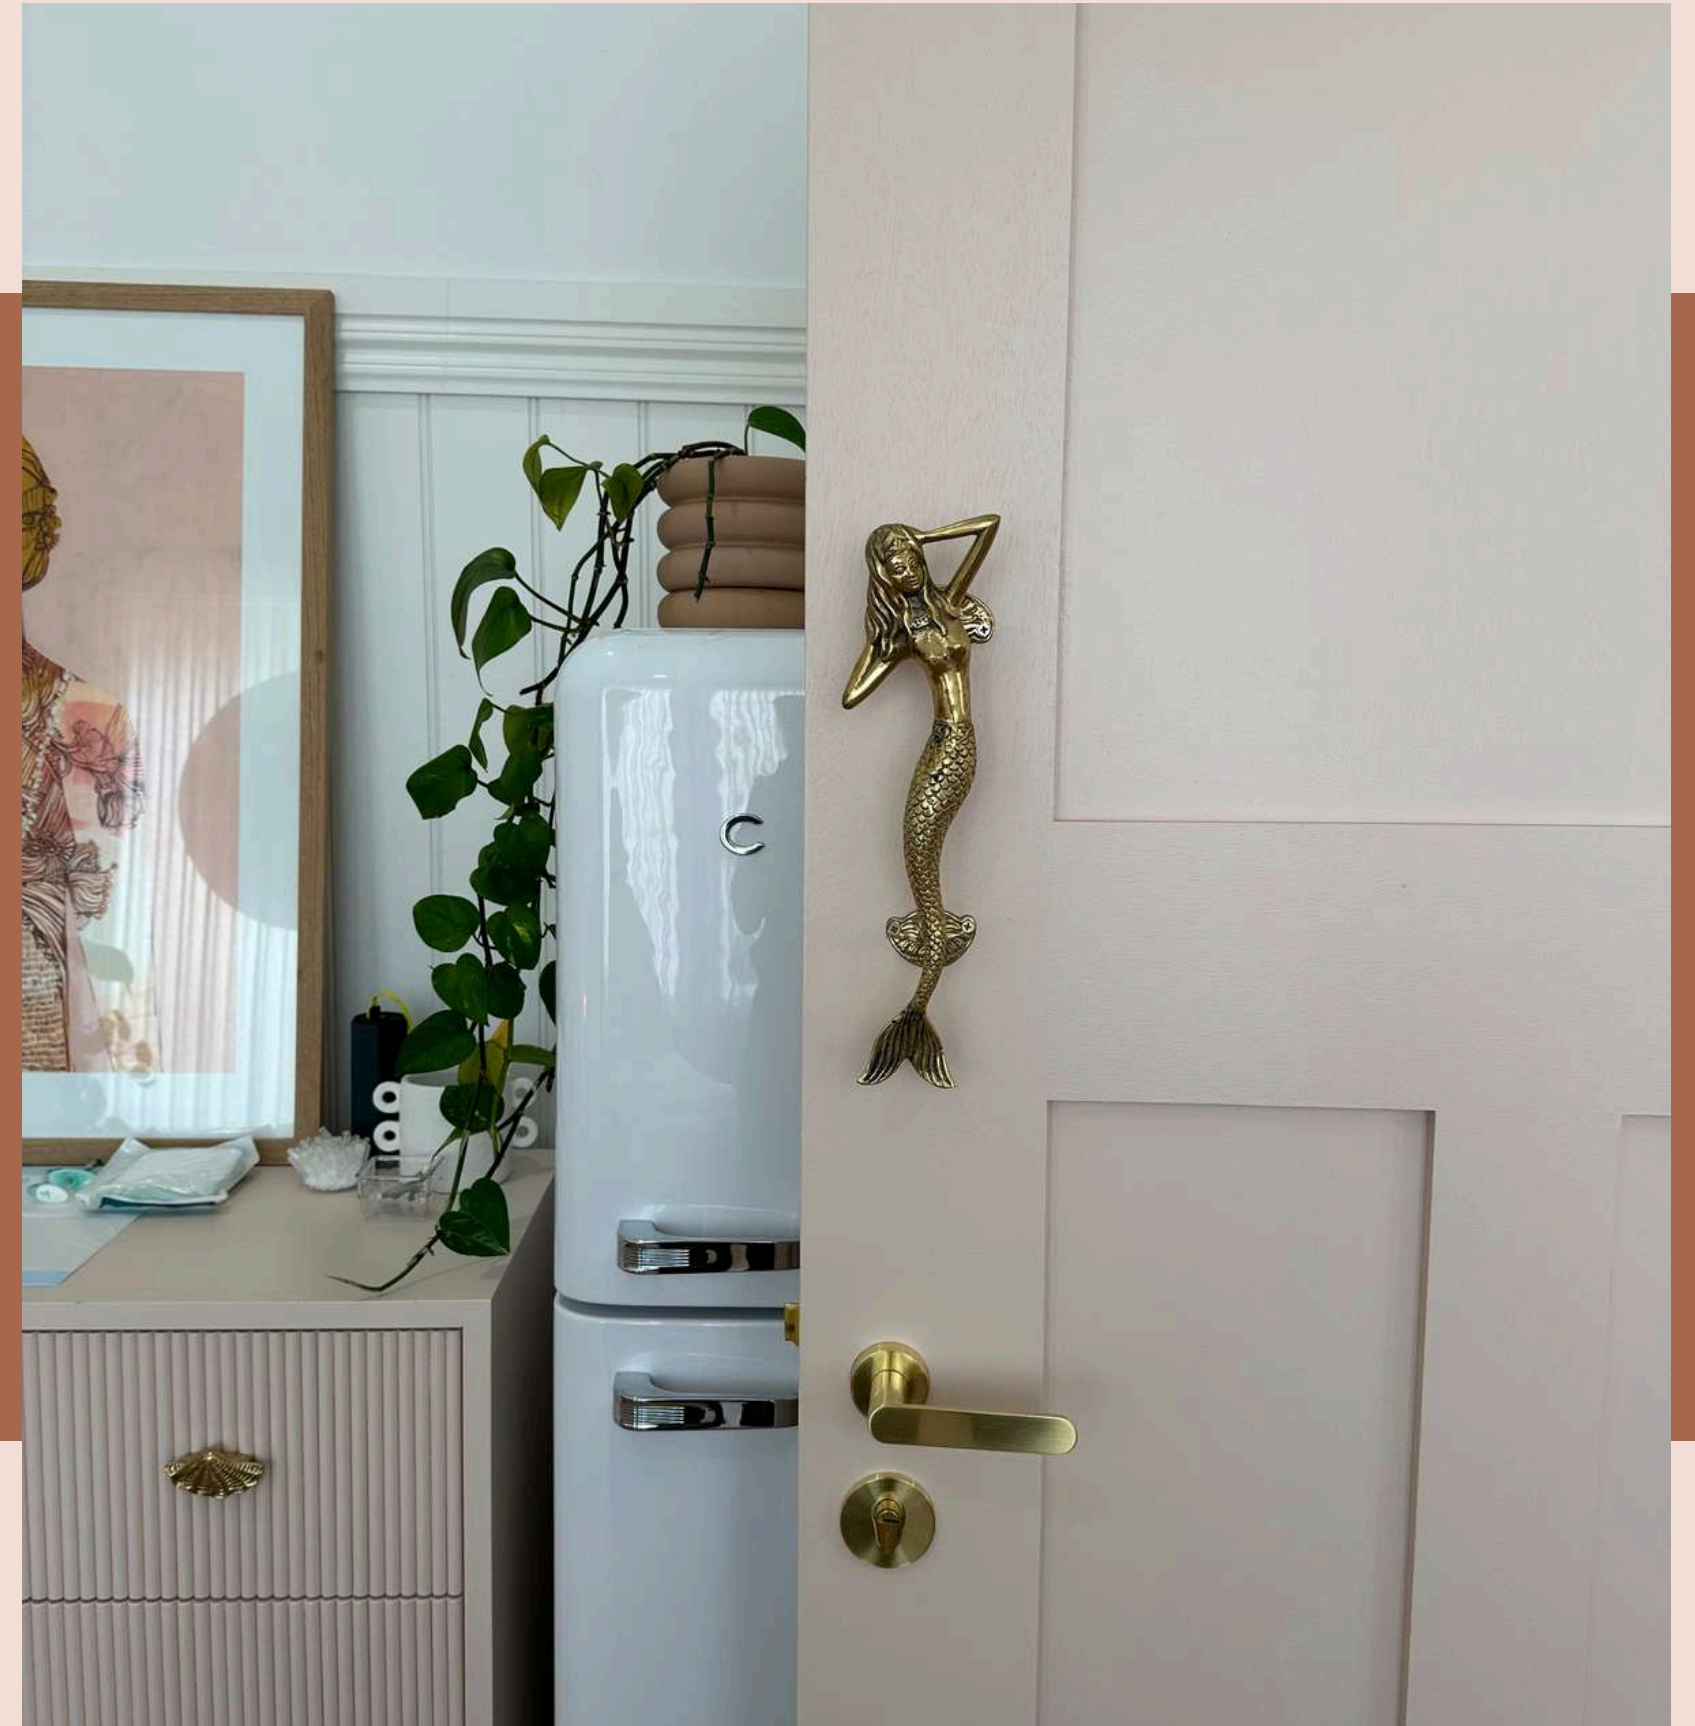

Rejuran Classic 2ml – 2ml x 3 sessions spaced 2-4 weeks apart then maintenance one treatment every 6-12 months.

What is the cost?

See below.

Is there any downtime?

Redness, minor swelling and potential bruising for a few days post treatment.

AquaGold Needling

What is it?

AquaGold is a revolutionary microinjector device used in aesthetic medicine. It delivers a customized blend of skin-enhancing ingredients including Antiwrinkle & Skinboosters directly into the skin, providing rejuvenation, hydration, decrease in pore size and overall improvement in skin quality and texture.

What areas does it treat?

Full Face rejuvenation.

How often?

4-6 months

What is the cost?

\$499 per treatment.

Is there any downtime?

Redness and minor swelling for up to 24 hours.
