

## RING SIZE GUIDE

### PRINTING INSTRUCTIONS

1. Before printing this sheet, make sure the page fit options (eg, "fit to paper") is unchecked and have a print scale setting set to "none".
2. Print this sheet.
3. To make sure that the ring measurements chart will work correctly, check - with the help of a ruler - that the line at the top of the next page measures 3 cm. This measurement has to be precise. If the result is different than 3 cm, double check all page adjustment options and print once more.

### HOW TO USE THE RING MEASUREMENTS CHART

If you have a ring that perfectly fits the finger where you will wear the ring of your choice, you can place it on the circle with the size that most closely matches the ring size chart.

- The inner side of the ring must line up with the outside of the circle.
- If your ring size is between 2 measurements, it is recommended that you choose the bigger size.
- The ring when placed on the finger should be snug and snug so that it does not fall off, but loose enough to slide over the finger.

### THE RING & YOUR FINGER

The finger measurement varies depending on the time of day and the weather. For best results measure your finger at the following times:

- At the end of the day and when your fingers are warm (the fingers are smaller in the morning and when it's cold).
- Measure finger size a few times to avoid misreading.
- Avoid using a string to measure finger size as it can stretch or twist, leading to an incorrect measurement.

# RING SIZE GUIDE CHART

**8**  
15,25mm

- Italian Size
- Ring's Interior Diameter
- IT 8
- US 4,5
- EU 48

- Select a Ring that fits the finger you wish to wear it on.
- Place your ring on the circles below until you find one that fits perfectly inside your ring.
- The inner side of the ring must line up with the outside of the circle.
- If your ring size is between 2 measurements, it is recommended that you choose the bigger size.
