Interface Introduction

Connection Demonstration

Using Instructions

1. Connect the KVM switch to the power supply via the power input. Note: External power supply is required when using high-power devices, such as hard disk and USB camera.
2. Connect the KVM switch to computers using the USB cables and HDMI cables.
3. Turn on the computers, and interchange between 2 computers by pressing the switch button.

Siliking Will Help You

If you encounter any problems during use, we welcome you to contact us for support. Our mission is to help you have a great shopping experience. So please do not hesitate to contact us. We will deal with problems as soon as we receive them, and connect with technical support to ensure that such problems are solved as far as possible.

Cautions

- Please avoid use in high temperature, low temperature, wet, dusty and long-term exposure to sunlight.
- Do not place the product in an environment with corrosive substances, and do not use other chemical solutions to clean the product.
- Keep the product out of reach of children and do not allow children to use the product unsupervised.
- Do not disassemble or repair the products and accessories without authorization.
- Gently clean the product with a dry cloth.

Fitting requirement

- Use of unauthorized or incompatible power supplies, accessories that may cause fire, explosion or other hazards;
- Only accessories approved by the equipment manufacturer and compatible with this model can be used. If you need approved accessories, please contact customer service.

Environmental protection

- Do not dispose of the equipment and its accessories as ordinary household garbage;
- Please comply with local laws governing the disposal of this device and its accessories and support recycling.

Support

If you have any questions, please contact our customer support: support@acasis.com.
