This product should be installed according to this manual.

Please read this manual carefully and install properly.

Please save this manual and place it at an easily accessible place.

Do not attempt to service this appliance yourself. Doing so could void warranty.

Safety Instruction

IMPORTANT SAFEGUARDS

When using electrical products, especially when children are present, basic safety precautions should always be followed, including the following:

READ ALL INSTRUCTIONS BEFORE USING

INSTALLATION

- 120V 60Hz: Power supply must be at least 15Amp GFC outlet.
- The electrical cord is a minimum of 3ft.long.
- The electrical cord must be connected to a GFCI outlet.
- The GFCI outlet should be 1 ft. above the floor.
- Install only in well-ventilated areas to avoid excess humidity.
- Do not install in narrow toilet stalls or in shower stalls.
- Install only where direct contact with water is minimized.
- Do not install near any heat source.
- Avoid using extension cords if possible. Consult with a certified electrician if extension cords are necessary.

DANGER

To reduce the risk of electrocution:

- Do not use while bathing.
- ② Do not place or store product where it can fall or be pulled into a tub or sink.
- 3 Do not place in or drop into water or other liquid.
- ② Do not reach for a product that has fallen into water. Unplug immediately.

WARNING

To reduce the risk of burns, electrocution, fire, or injury to persons.

- Close supervision is necessary when this product is used by, on, or near children or those with limited mobility.
- ② Use this product only for its intended use as described in this manual. Do not use attachments not recommended by the manufacturer.
- Never operate this product if it has a damaged cord or plug, if it is not working properly, if it has been dropped or damaged, or dropped into water. Return the product to a service center for examination and repair.
- 4 Keep the cord away from heated surfaces.
- Never use while drowsy.
- **13** Never drop or insert any object into any opening or hose.
- Do not use outdoors or operate where aerosol (spray) products are being used or where oxygen is being administered.
- 3 Connect this product to a properly grounded outlet only. See Grounding Instructions.
- When using for the first time, please follow instructions.

SAVE THESE INSTRUCTIONS

GROUNDING INSTRUCTIONS

This product should be grounded. In the event of an electrical short circuit, grounding reduces the risk of electric shock by providing an escape wire for the electric current. This product is equipped with a cord having a grounding wire with a grounding plug. The plug must be plugged into an outlet that is properly installed and grounded.

DANGER

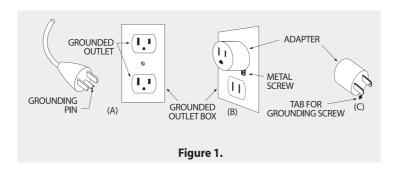

Improper use of the grounding plug can result in a risk of electric shock.

When repairing or replacing the cord or plug, do not connect the grounding wire to either flat blade terminal. The wire with insulation, having an outer surface that is green with or without yellow stripes, is the grounding wire. Check with a qualified electrician or serviceman if the grounding instructions are not completely understood, or if in doubt as to whether the product is properly grounded.

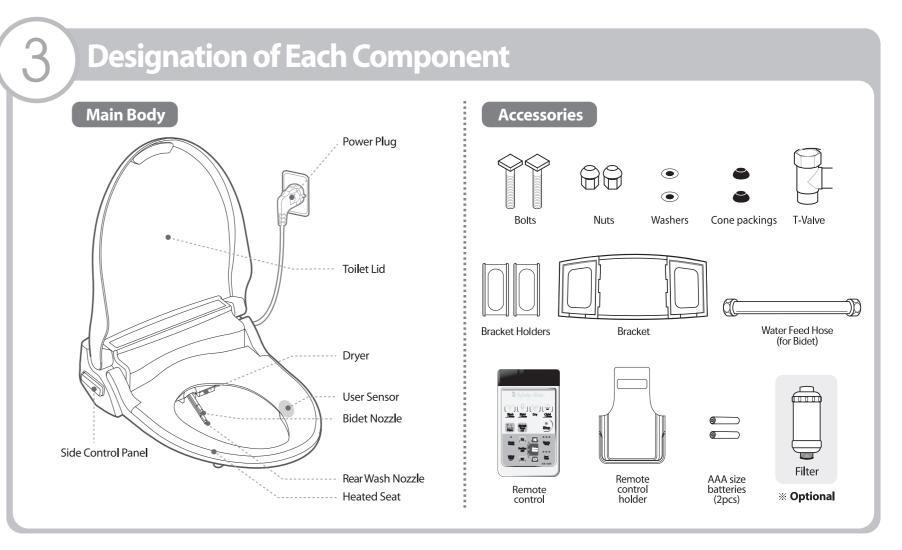

Grounded cord-connected products, rated 15 A or more, intended for use on a nominal 120 V supply circuit. This product is

for use on a nominal 120 V circuit, and has a grounding plug that looks like the plug illustrated in Figure 1(A). A temporary adapter, which looks like the adapter illustrated in Figure 1(B) and (C), may be used to connect this plug to a 2-pole receptacle as shown in Figure 1(B), if a properly grounded outlet is not available.

The temporary adapter should be used only until a properly grounded outlet, Figure 1(A), can be installed by a qualified electrician. The green tab, nut, or other connector extending from the adapter must be connected to a permanent ground, such as a properly grounded outlet box cover. Whenever the adapter is used, it must be held in place by the screw.

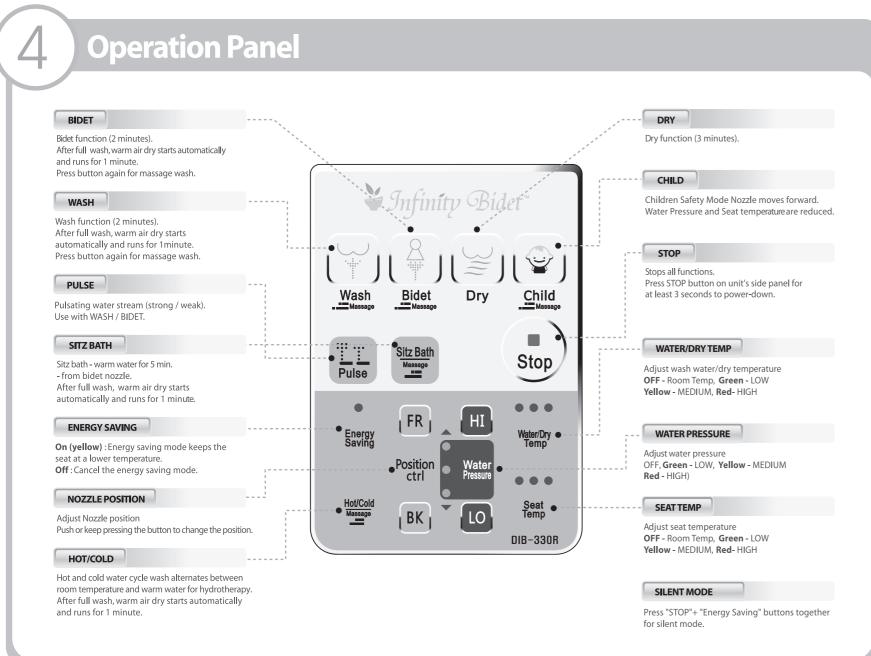

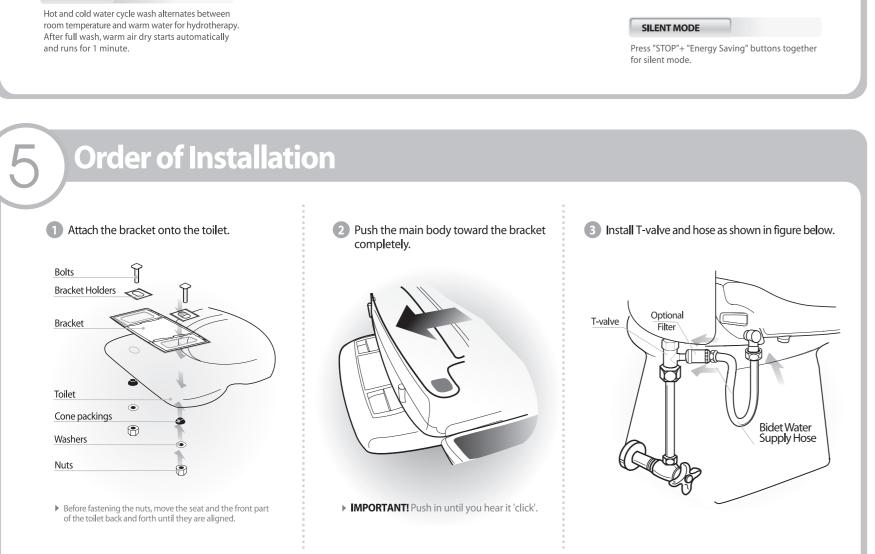

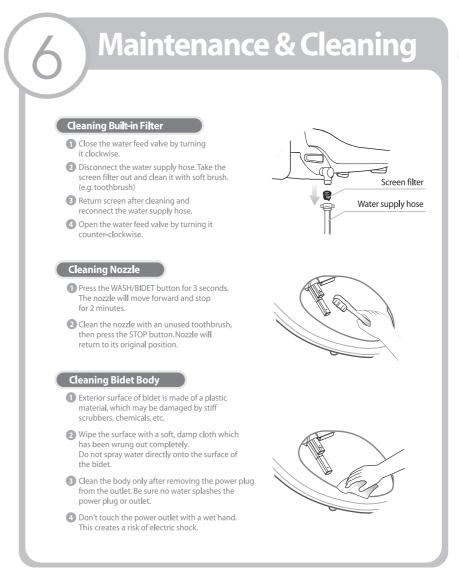

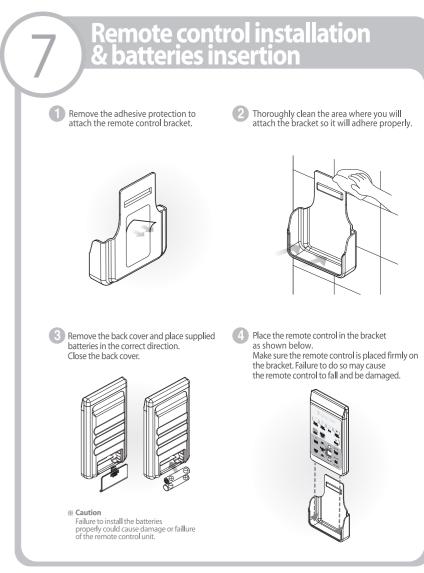

USER GUIDE | XLC-3000(120V ~, 60 Hz) (%)

Product Specifications

	Item			XLC-3000
	Rated Voltage			120V ~ , 60 Hz
	Max. Consumption Power			1,250W
	Power Cord Length			4ft
	Water Feed Method			Directly Connected to Water Pipe
	Water Pressure			10.6 ~ 106.6 psi
	Wash	Feeding Volume	Wash	0.14 gal/min
			Bidet	0.14 gal/min
		Water Pressure Control		4 Steps Control
		Temp. Control		Room temp, HIGH, MIDDLE, LOW
		Heater Capa.		1,200W
		Safety Device		Temp. Fuse, Thermo Switch
	Heated Seat	Temp. Control		Room temp, HIGH, MIDDLE, LOW
		Heater Capa.		55W
		Safety Device		Temp. Fuse
	Dry	Temp. Control		Room Temp. ∼ 122°F
		Heater Capa.		250W
		Safety Device		Temp. Fuse, Thermo Switch
	Product Dimension	Elongated		16" × 20.8" × 5.7"
		Round front		16" × 19.5" × 5.7"
		Small		16" × 16" × 5.7"
	Product Weight (Gross Weigth)	Elongated		10.2lb (16.4lb)
		Round front		10lb (16.2lb)
		Small		9.8lb (16lb)
