# ABOUT BABY SUN

**BabySun** is a token created by a team with strong fundamental knowledge of the Binance Smart Chain and general cryptocurrency.

The team have worked hard internally to implement the best distribution and tokenomics to ensure that investors are comfortable with hodling while earning Tron (TRX) dividends

The contract distributes rewards on an hourly basis.

Baby Sun takes after his Daddy Justin Sun, he loves \$TRX so much that he wants to give it away! Earn \$TRX through a 8% reflection tax just for holding Baby Sun in your wallet!
