How to take online exams via TestNow™

Step 1: Go to <https://edube.org/testing-service>, and enter your user data, and click *Log in*.

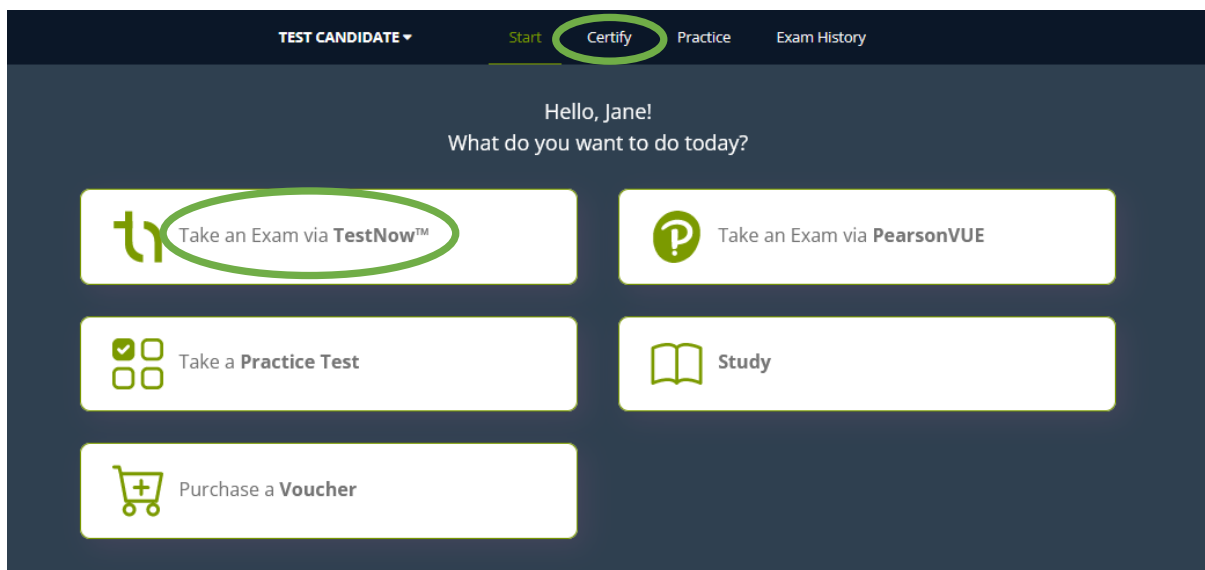

Log in

Email

Password

[I forgot my password](#)

Step 2: Click the *Certify* tab or select the option *Take an Exam via TestNow*.

Step 3: There are two ways you can launch your exam session.

Method #1: Click *Take Exam*, and enter your code to begin the exam immediately.

Method #2: Click *Assign Voucher*, and enter the code.

You will notice that your exam voucher has been assigned to your account. When you are ready to take the exam, log in to your account, and click the *Launch Exam* button located next to your voucher code.

The screenshot shows the TestNow interface. At the top, there is a navigation bar with 'TestNow™', 'Pearson VUE', and 'Purchase Exam Vouchers'. Below this is the TestNow logo and a brief description: 'TestNow™ is the OpenEDG online test delivery system that makes it as easy as possible for you to schedule and take your OpenEDG and partner exams.' There are two buttons: 'Take Exam' and 'Assign Voucher'. A green notification bar states 'The voucher has been successfully assigned.' Below this is a section titled 'TestNow - Voucher Inventory' containing a table with the following data:

Voucher Code	Exam	Must Be Used By	Information	
LLTDORSZWQGN	PCEP – Certified Entry-Level Python Programmer	January 11, 2023	AI Proctoring + Review	Launch Exam Unassign

*If you want to unassign the voucher code from your account and assign this voucher to a different account, click *Unassign*.

This screenshot is identical to the one above, showing the TestNow interface with the voucher inventory table. In this version, the 'Unassign' button for the voucher LLTDORSZWQGN is circled in green, indicating the action to be taken.

Step 4: The moment you launch your exam, you are asked to read and accept the Exam Policies. Click *Proceed* to continue.

Diagnostics Check

- Active Internet Connection ✓
- Internet Browser - Chrome (100.0.4896.88) ✓
- JavaScript Enabled ✓
- Screen Resolution - 1920x942 ✓
- Operating System - Windows 10 ✓
- Camera and Microphone Enabled ✓

Technical Requirements

Prior to launching your exam session, please ensure that you follow all equipment and technical guidelines, as failure to do so could result in the premature termination of your exam session. Specifically, please make sure you **disable**:

- **automatic software and system updates** (e.g., Windows updates should be turned off or set to not occur during the exam session)
- **notifications** (e.g., new email notifications)
- **pop-up windows, and applications** (e.g., messaging apps, VOIP services, etc.) that can disturb or disrupt the exam session.

confirm that I have followed the above technical requirements and I accept the [Exam Policies](#).

Proceed

Step 5: You will see a screen with your Test Candidate details. Click *Begin session* to start your exam.

Test Candidate & Exam Details

— Test Candidate Details

OpenEDG ID: OEDG1060198
First Name: Test
Last Name: Candidate
Email Address: testcandidate@openedg.org
Country: US
Date of Birth: 01/01/2000

— Exam Details

Exam Name: PCEP – Certified Entry-Level Python Programmer
Exam Version: PCEP-30-02
Voucher Code: test2FHGXZX

Exam Language:

English

Begin session

FAQ:

1. I want to choose the Spanish version of the exam. Where can I find the option to change the language of the exam?

Some exams are available in different language versions. Select the language version from the drop-down list before beginning your exam.

— Exam Details

Exam Name: PCEP – Certified Entry-Level Python Programmer

3. I can't find my "Certify" tab and I'm not able to assign my exam voucher. What can I do?

If the *Certify* tab is not available in your account, please switch from the *Learner* account to the *Test Candidate* account.

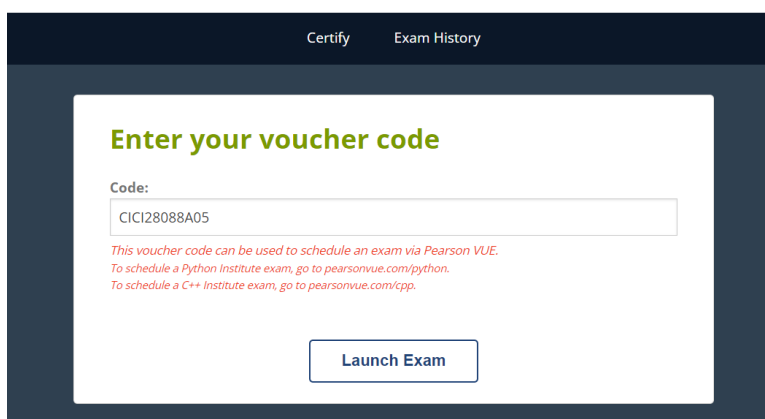

4. My voucher is not working. Why?

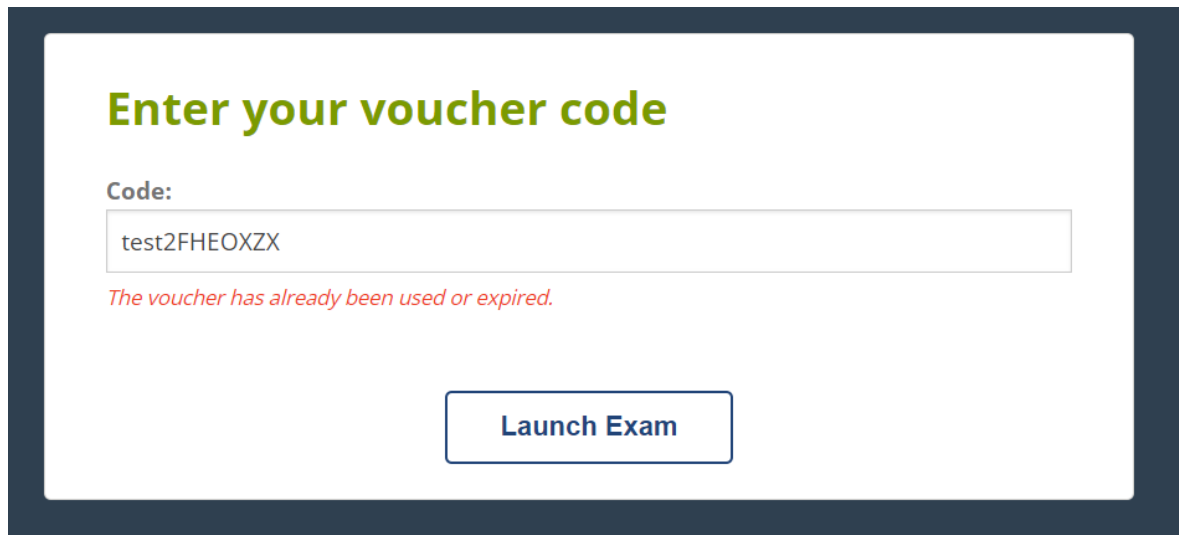

It's possible that you are entering your exam voucher in the wrong field. Please make sure that you are trying to assign your exam voucher in the *Certify* tab.

If you can see the error message "This voucher code can be used to schedule an exam at Pearson VUE", this means that you need to use your exam voucher to schedule the exam either here (Python Institute exams) <https://home.pearsonvue.com/python> or here (C++ Institute exams) <https://home.pearsonvue.com/cppinstitute>.

If you can see the error message “The voucher has already been used or expired”, please check your voucher’s validity (you can find this information in the email you received from our store) and make sure that you haven’t already assigned this voucher to your account or used it.

The screenshot shows a dark blue rectangular frame containing a white form. At the top of the form, the text "Enter your voucher code" is written in a bold, green font. Below this, the label "Code:" is positioned to the left of a text input field. The input field contains the alphanumeric string "test2FHEOXZX". Directly beneath the input field, a red error message reads "The voucher has already been used or expired." At the bottom center of the form, there is a button with a dark blue border and the text "Launch Exam" in a dark blue font.

Note: Please remember to familiarize yourself with the testing policies prior to launching the exam session to make sure that you follow the technical requirements and the Code of Honor.

If you have any questions related to your exam, please contact us at support@openedg.org.
