ARMADILLO ARMOR

CLASS 00 RUBBER GLOVES

DESCRIPTION

Experience unparalleled safety with Armadillo Armor Class 00 Insulated Rubber Gloves. These cutting-edge electrical-insulating rubber gloves are meticulously crafted to conform to the stringent ASTM D120 Class 00 standards. Safeguarding workers against voltages up to 500VAC, these gloves serve as armor to protect against electrical hazards, ensuring unyielding safety.

WARNING: It is imperative to align the voltage class rating of your gloves to the applicable voltage when performing work.

SPECIFICATIONS

- Class: 00
- Size: 8, 9, 10, 11
- Outer Color: Black/Red
- Inner Color: Black/Red
- Length: 11", 14"
- Material: Natural Rubber
- Standards: ASTM D 120, IEC EN60903
- AC Max. Use Voltage: 500V AC
- Proof Test Voltage (AC): 2500V AC
- Type: Type I
- Cuff Style: ST
- Includes: Pair, Left and Right

CLASS 0 RUBBER GLOVES

DESCRIPTION

Experience unparalleled safety with Armadillo Armor Class 0 Insulated Rubber Gloves. These cutting-edge electrical-insulating rubber gloves are meticulously crafted to conform to the stringent ASTM D120 Class 0 standards. Safeguarding workers against voltages up to 1000VAC, these gloves serve as armor to protect against electrical hazards, ensuring unyielding safety.

WARNING: It is imperative to align the voltage class rating of your gloves to the applicable voltage when performing work.

SPECIFICATIONS

- Class: 0
- Size: 8, 9, 10, 11
- Outer Color: Black/Red
- Inner Color: Black/Red
- Length: 11", 14"
- Material: Natural Rubber
- Standards: ASTM D 120, IEC EN60903
- AC Max. Use Voltage: 1000V AC
- Proof Test Voltage (AC): 5000V AC
- Type: Type I
- Cuff Style: ST
- Includes: Pair, Left and Right

CLASS 1 RUBBER GLOVES

DESCRIPTION

Experience unparalleled safety with Armadillo Armor Class 1 Insulated Rubber Gloves. These cutting-edge electrical-insulating rubber gloves are meticulously crafted to conform to the stringent ASTM D120 Class 1 standards. Safeguarding workers against voltages up to 7500VAC, these gloves serve as armor to protect against electrical hazards, ensuring unyielding safety.

WARNING: It is imperative to align the voltage class rating of your gloves to the applicable voltage when performing work.

SPECIFICATIONS

- Class: 1
- Size: 8, 9, 10, 11
- Outer Color: Black
- Inner Color: Red
- Length: 16"
- Material: Natural Rubber
- Standards: ASTM D 120, IEC EN60903
- AC Max. Use Voltage: 7,500V AC
- Proof Test Voltage (AC): 10,000V AC
- Type: Type I
- Cuff Style: ST
- Includes: Pair, Left and Right

CLASS 2 RUBBER GLOVES

DESCRIPTION

Experience unparalleled safety with Armadillo Armor Class 2 Insulated Rubber Gloves. These cutting-edge electrical-insulating rubber gloves are meticulously crafted to conform to the stringent ASTM D120 Class 2 standards. Safeguarding workers against voltages up to 17000VAC, these gloves serve as armor to protect against electrical hazards, ensuring unyielding safety.

WARNING: It is imperative to align the voltage class rating of your gloves to the applicable voltage when performing work.

SPECIFICATIONS

- Class: 2
- Size: 8, 9, 10, 11
- Outer Color: Black
- Inner Color: Red
- Length: 14", 16", 18"
- Material: Natural Rubber
- Standards: ASTM D 120, IEC EN60903
- AC Max. Use Voltage: 17000V AC
- Proof Test Voltage (AC): 20,000V AC
- Type: Type I
- Cuff Style: ST
- Includes: Pair, Left and Right

CLASS 3 RUBBER GLOVES

DESCRIPTION

Experience unparalleled safety with Armadillo Armor Class 3 Insulated Rubber Gloves. These cutting-edge electrical-insulating rubber gloves are meticulously crafted to conform to the stringent ASTM D120 Class 3 standards. Safeguarding workers against voltages up to 26500VAC, these gloves serve as armor to protect against electrical hazards, ensuring unyielding safety.

WARNING: It is imperative to align the voltage class rating of your gloves to the applicable voltage when performing work.

SPECIFICATIONS

- Class: 3
- Size: 8, 9, 10, 11
- Outer Color: Black
- Inner Color: Red
- Length: 16", 18"
- Material: Natural Rubber
- Standards: ASTM D 120, IEC EN60903
- AC Max. Use Voltage: 26500V AC
- Proof Test Voltage (AC): 30000V AC
- Type: Type I
- Cuff Style: ST
- Includes: Pair, Left and Right

CLASS 4 RUBBER GLOVES

DESCRIPTION

Experience unparalleled safety with Armadillo Armor Class 4 Insulated Rubber Gloves. These cutting-edge electrical-insulating rubber gloves are meticulously crafted to conform to the stringent ASTM D120 Class 4 standards. Safeguarding workers against voltages up to 36,000VAC, these gloves serve as armor to protect against electrical hazards, ensuring unyielding safety.

WARNING: It is imperative to align the voltage class rating of your gloves to the applicable voltage when performing work.

SPECIFICATIONS

- Class: 4
- Size: 8, 9, 10, 11
- Outer Color: Black
- Inner Color: Red
- Length: 16", 18"
- Material: Natural Rubber
- Standards: ASTM D 120, IEC EN60903
- AC Max. Use Voltage: 36000V AC
- Proof Test Voltage (AC): 40000V AC
- Type: Type I
- Cuff Style: ST
- Includes: Pair, Left and Right
