

SpaceSaver®

Compact Trough/Drinker Valve

APEX
VALVES
A WATTS Brand

APPLICATION

Compact Acetyl valve designed for small individual troughs and drinkers as well as hydroponics

FEATURES & BENEFITS

- Non-corrosive materials - ideal for hydroponic applications
- Float can be rotated to fit in small spaces
- Plunger activated
- Comes with long tail and back nut, removing need for tank fittings on thin-walled troughs

SPECIFICATIONS

Working Pressure: 0 - 850 kPa (120 psi)

Flow Rate: 18 L/min (4 gal/min) @ 850 kPa (120 psi)

Temperature Range: 1°C - 60°C (34°F - 140°F)

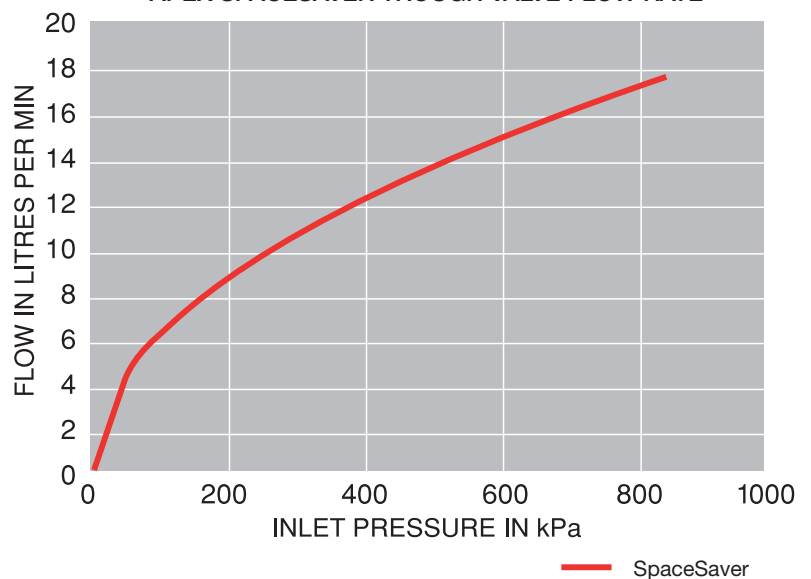

AVAILABLE SIZES

- 15mm (1/2")
- 20mm (3/4")

SPARES & ACCESSORIES

- Spare float
- Service Kit (contains plunger with washer, and clip)
