

Simple, Flexible, Reliable

With Quick Pair technology and the Rain Bird® mobile app, you will have instant access to customize a watering schedule using up to 3 available programs. The mobile-first interface provides homeowners with the convenience they have come to expect while offering contractors the easiest and fastest programming experience available.

The RC2 irrigation controller is the perfect solution for residential applications. Building upon Rain Bird's legacy of The Intelligent Use of Water®, this controller offers simple water saving features that you will actually use.

Plug and Play

Simply plug in the controller, download the Rain Bird mobile app to connect and program the RC2 controller. With Quick Pair technology setting up a controller is easier and faster than ever before!

80 Years of Experience

Rain Bird's stellar reputation of providing high quality irrigation products for over 80 years delivers again with the RC2, carrying a 3 year trade warranty.

Simple to Program

With the Rain Bird mobile app you have intuitive access to all controller features allowing you to spend less time programming. For even more time savings try the new schedule template feature!

Quick to Install

- ▶ Suitable for sites with up to 8 stations.
- ▶ One model for indoor or outdoor installation.
- ▶ Factory installed outdoor rated power cord for your convenience.

Simple to Program

- ▶ Quick Pair technology for fast and seamless mobile connection.
- ▶ Rain Bird mobile app provides easy access to all program features.
- ▶ 3 available programs with up to 4 start times for each program.
- ▶ Schedule templates allow contractors to save commonly used programs to import to a controller quickly and easily.

Advanced Features

- ▶ Delay Watering up to 14 days and automatically resume watering after the set delay has elapsed.
- ▶ Cycle and Soak by station give the contractor and homeowner an easy way to prevent wasted water due to run-off.
- ▶ Seasonal Adjust by program allows you to easily reduce or increase watering by program.
- ▶ Forecasted weather delays to prevent irrigation with rain, wind or freezing temperatures in the forecast.

WiFi Included

- ▶ Simple to use mobile app interface built for contractors and homeowners give you access from anywhere in the world.
- ▶ Wireless Access Point will allow connection to the controller with the push of a button for easy on-site contractor access.
