SEWING & QUILTING PRODUCTS

## Floriani Deluxe Thread Color Chart

### Floriani Mixed

Our Mixed thread is a unique blend of two colors of threads creating a twist or mix of color. This produces a dynamic result for appliqué, embroidering animals or feathering effects for hair or quilting designs. Create your own "blend" by running two strands of thread through your machine at one time – be sure to use a Topstitch needle for best results!

### Floriani Variegated

Floriani variegated thread is a luxurious 40 weight rayon. The thread graduates from one color to the next in random lengths. Beautiful for red-work designs, monograms and floral embroidery designs.

### Floriani Polyester

Polyester embroidery thread has evolved into one of the most beautiful and most durable choices for the majority of embroidery projects. It is mostly color-fast, endures high speed stitching without breakage and is available in a huge variety of colors. This thread is ideal for baby clothing, towels and uniforms as it can be laundered repeatedly. Floriani polyester embroidery thread can even withstand bleaching!

### Floriani Metallic

This beautiful thread produces exquisite stitching results. Floriani metallic embroidery thread is manufactured with a unique process to eliminate thread breakage which has been so common with metallics in years past. Our thread features a polyester core, it is then wrapped in metal and then finished with mylar. The result is smooth stitching and no need to use a specialty metallic needle!
