Floriani FUN Project

Needle Turn Applique

with Floriani Stitch N Wash® Tearaway Fusible

This 1.5 oz tearaway stabilizer was initially designed for embroidery. However, it's soluble properties make it ideal for needle turn applique...

Especially when working with complex points and curves.

Supplies Needed:

- Floriani Stitch N Wash Fusible – Printable Sheets or Rolls
- Water Soluble Glue Stick
- Floriani Precision Angle Tweezers
- Applique Fabric
- Decorative Thread

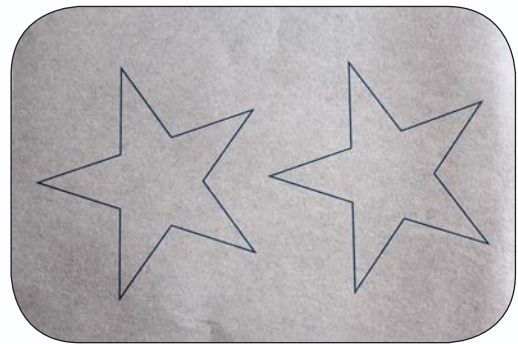

Floriani FUN Project

Needle Turn Applique

with Floriani Stitch N Wash® Tearaway Fusible

To use Stitch N Wash® Fusible for Needle Turn Applique:

- 1** Trace or print the reversed image of your appliqué design/pattern onto the non-fusible side of stabilizer.

****If Printing – Use an inkjet printer only and setting should be for “specialty paper”.
Print only one sheet at a time (not a stack)!**

- 2** Cut the image out following the drawn or printed line.

- 3** Fuse the trimmed piece of stabilizer to the wrong side of appliqué fabrics using a medium setting on your iron.

****Note – the fabric should be at least 1/2” larger than the stabilizer.**

4

Trim the applique fabric leaving a 1/4" seam allowance.

5

Using a water soluble glue stick – follow along the edge of the stabilizer (very lightly and to the wrong side) Fold the fabric allowances to the stabilizer – allow to dry.

****Tip – Use your Floriani Precision Angle Tweezers to help fold over the edge of the fabric using the flat edge.**

6

Stitch the appliqué to your background fabric.

Stitch N Wash Fusible Sizes available: 12" x 10 yds, 20" x 10 yds, 8.5" x 11" sheets
