

Key Benefits:

CAVU NOx Boost is an exciting product that takes advantage of our naturally grown cannabinoids along with superior ingredients such as L-Argenine and L-Citrulline. Our L-Argenine/Cannabinoid blend has been shown to increase the nitric oxide levels in the blood stream which can aid in the following: Enhanced male sexual performance, cholesterol control, HGH production, Boosting lean muscle mass, enhanced memory and it can help offset cardiovascular and lung

damage caused by tobacco use. L-Citrulline is a naturally occurring amino acid. It is found in some foods like watermelon and is also produced naturally in the body, much like endocannabinoids. With 63% of people over the age of 40 struggling with blood pressure, our NOx Boost is the right answer to help you take control of your blood pressure naturally.

How To Use:

Mix one serving (1 scoop) in 8 ounces of liquid daily or as recommended by your healthcare practitioner. No refrigeration needed.
