

Washing Instructions

- Never use biological detergents, fabric softeners or dryer sheets.
- Never use bleaching agents, enzymes or brighteners.
- Never use bi-carbonate of soda or products containing vinegar or high quantities of citric acid.
- Never washing without closing up your washing tabs.
- Fasten the velcro tabs **5** onto the specially designed washing tab **4** at the back of the nappy (see below).
- Never wash without closing the wash tabs.
- Never tumble your outershell **1** or leave it over direct heat.
- You can occasionally finish the soaker **2** in the tumble dryer on a low heat, always remember to separate it from the outershell.

Before using...

We recommend that you prewash them twice before use. This can be done at 30/40 degrees centigrade and you only need minimal detergent. There is no need to dry the nappies in between the two pre-washes. A cold rinse before is recommended to stop stains setting.

Getting started...
