Noura Night Stand

The Noura Nightstand is designed for the Noura Bed. Like the bed, the nightstand is made with solid pressed Moso Bamboo. The Moso Bamboo is pressed into a dense wood timber, which is then used similarly to conventional wooden furniture planks.

Moso Bamboo

"Left" and "Right" styles make a symmetrical pair

Our tenna oil finish is resistant to spills and stains and will sustain for years with proper maintenance. Our pieces have been used in a variety of hospitality settings from hotels to retail spaces. For more information about taking care of this piece, view our Care Guide

Available Dimensions:

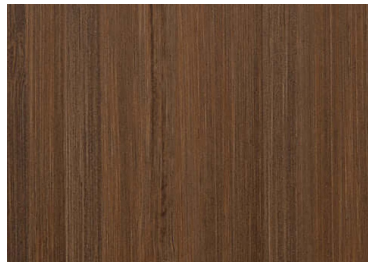

20"W x 14"D x 18"D

Bamboo Finishes

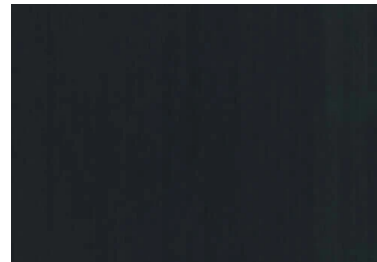

In line with Sun at Six's commitment to sustainability, they work Moso Bamboo, a highly sustainable material that grows rapidly in a 5 year cycle, in contrast to some hardwoods which can take up to 100 years to reach maturity. Moso Bamboo features a beautiful, rich graining pattern, with a dense, solid feel. It feels denser than White Oak, with the same smooth hand feel. Moso Bamboo pieces with the same house-made Tenna Oil.
