

30" XL Pro Mixing Paddle

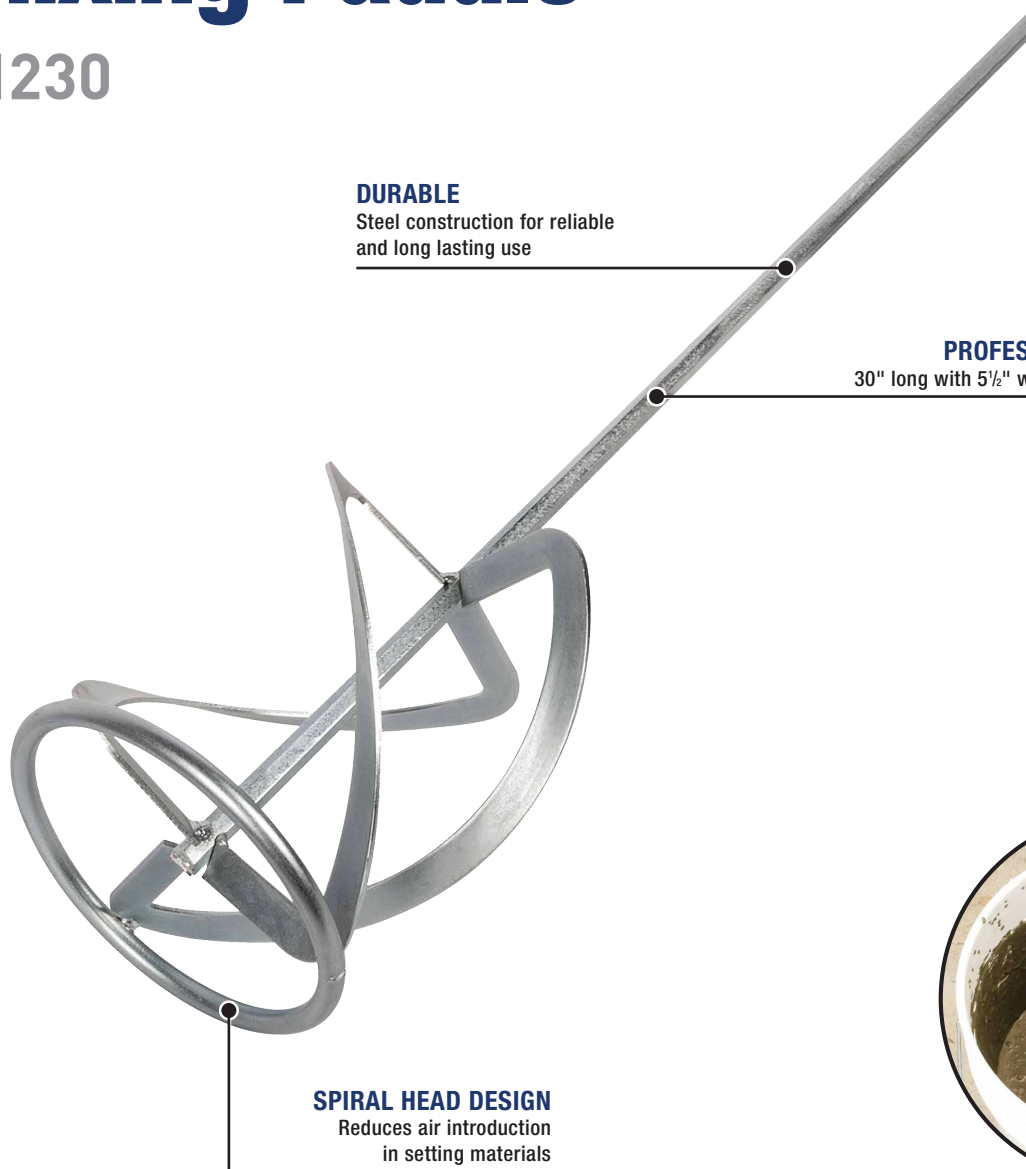

61230

DURABLE

Steel construction for reliable and long lasting use

PROFESSIONAL

30" long with 5½" wide blade

SPIRAL HEAD DESIGN
Reduces air introduction
in setting materials

**IDEAL FOR THE FAST AND
COMPLETE MIXING OF LARGE
BATCHES OF GROUTS, THINSET AND
OTHER SETTING MATERIALS**

- Mixes all types of thick and dense thin-set, adhesives and grout

The QEP® 30" Pro Spiral Mixing Paddle is specially designed for the fast and effective mixing of all types of setting and grouting substances, including thick and dense thinset, adhesives and grout. The large 5½" spiral head mixes product from the bottom up to prevent air bubbles, which can lead to installation issues. The convenient 30" length offers more leverage and comfort than standard mixing paddles.
