

# Color Match Chart

## For use with Roberts® 10-33 Universal Repair Kit

The repair kit contains five basic colors of putty plus an empty container and spoon. These putties can be mixed to achieve the specific shade needed. A number of formulas are shown on the inside cover of the kit. Additionally, formulas for many common colors are shown below. Select the formula that best matches your project and blend together equal size parts of the colors indicated. If necessary, modify the mixture to better match your project.
