

Expandable Bariatric Bed Frame

Is an increase in morbidly obese patients causing your budget to explode? The RC 750 is a 750 lb capacity bed frame with three function electric control. The simple to use pull pin system allows caregivers to easily expand the bed frame's width from 39" to 54" to accommodate a variety of body contours and emergency transport through 40" door frames. The RC 750's economical price makes it an excellent bariatric bed solution for the alternate care market.

Multi-functional Bariatric Capacity in an Affordable Package

MAXIMUM COMFORT

Greatest range of comfort with 54" Width and 96" Length capability

SPLIT FRAME

Flexible storage and transport through narrow doorways to deliver care when needed
