

## KINETEC SPECTRA XL™

An unbeatable combination of great design and latest USB technology combined to the strength required for Bariatric patients

- 32 cm (12.5 inches) wide carriage
- Patients up to 227kg (500lbs)
- KINETEC DATA CAPTURE™ USB technology ready
- ROM from -10° to 120°

### 32cm (12.5 inches) wide carriage

The KINETEC SPECTRA XL™ benefits from the same great specifications as the KINETEC SPECTRA™ but features a wider and even stronger carriage to treat bariatric patients.

### 227kg (500lbs) body weight load rating

The device also comes with a specifically designed motor enabling exercise on heavier loads in a safe environment.

### Patient feedback & unique features

The digital remote control provides a precise yet clear feedback to the patient as well as it helps the therapy with unique functions such as warm-up or by-pass.

### KINETEC DATA CAPTURE™ USB technology ready

The KINETEC SPECTRA™ remote control is also equipped with the latest USB technology enabling the use of the KINETEC DATA CAPTURE™ software and patient USBs to track patient progress as well as pre-program the entire patient rehabilitation protocol.
