Thoughtfully curated pieces for a renewed sense of home

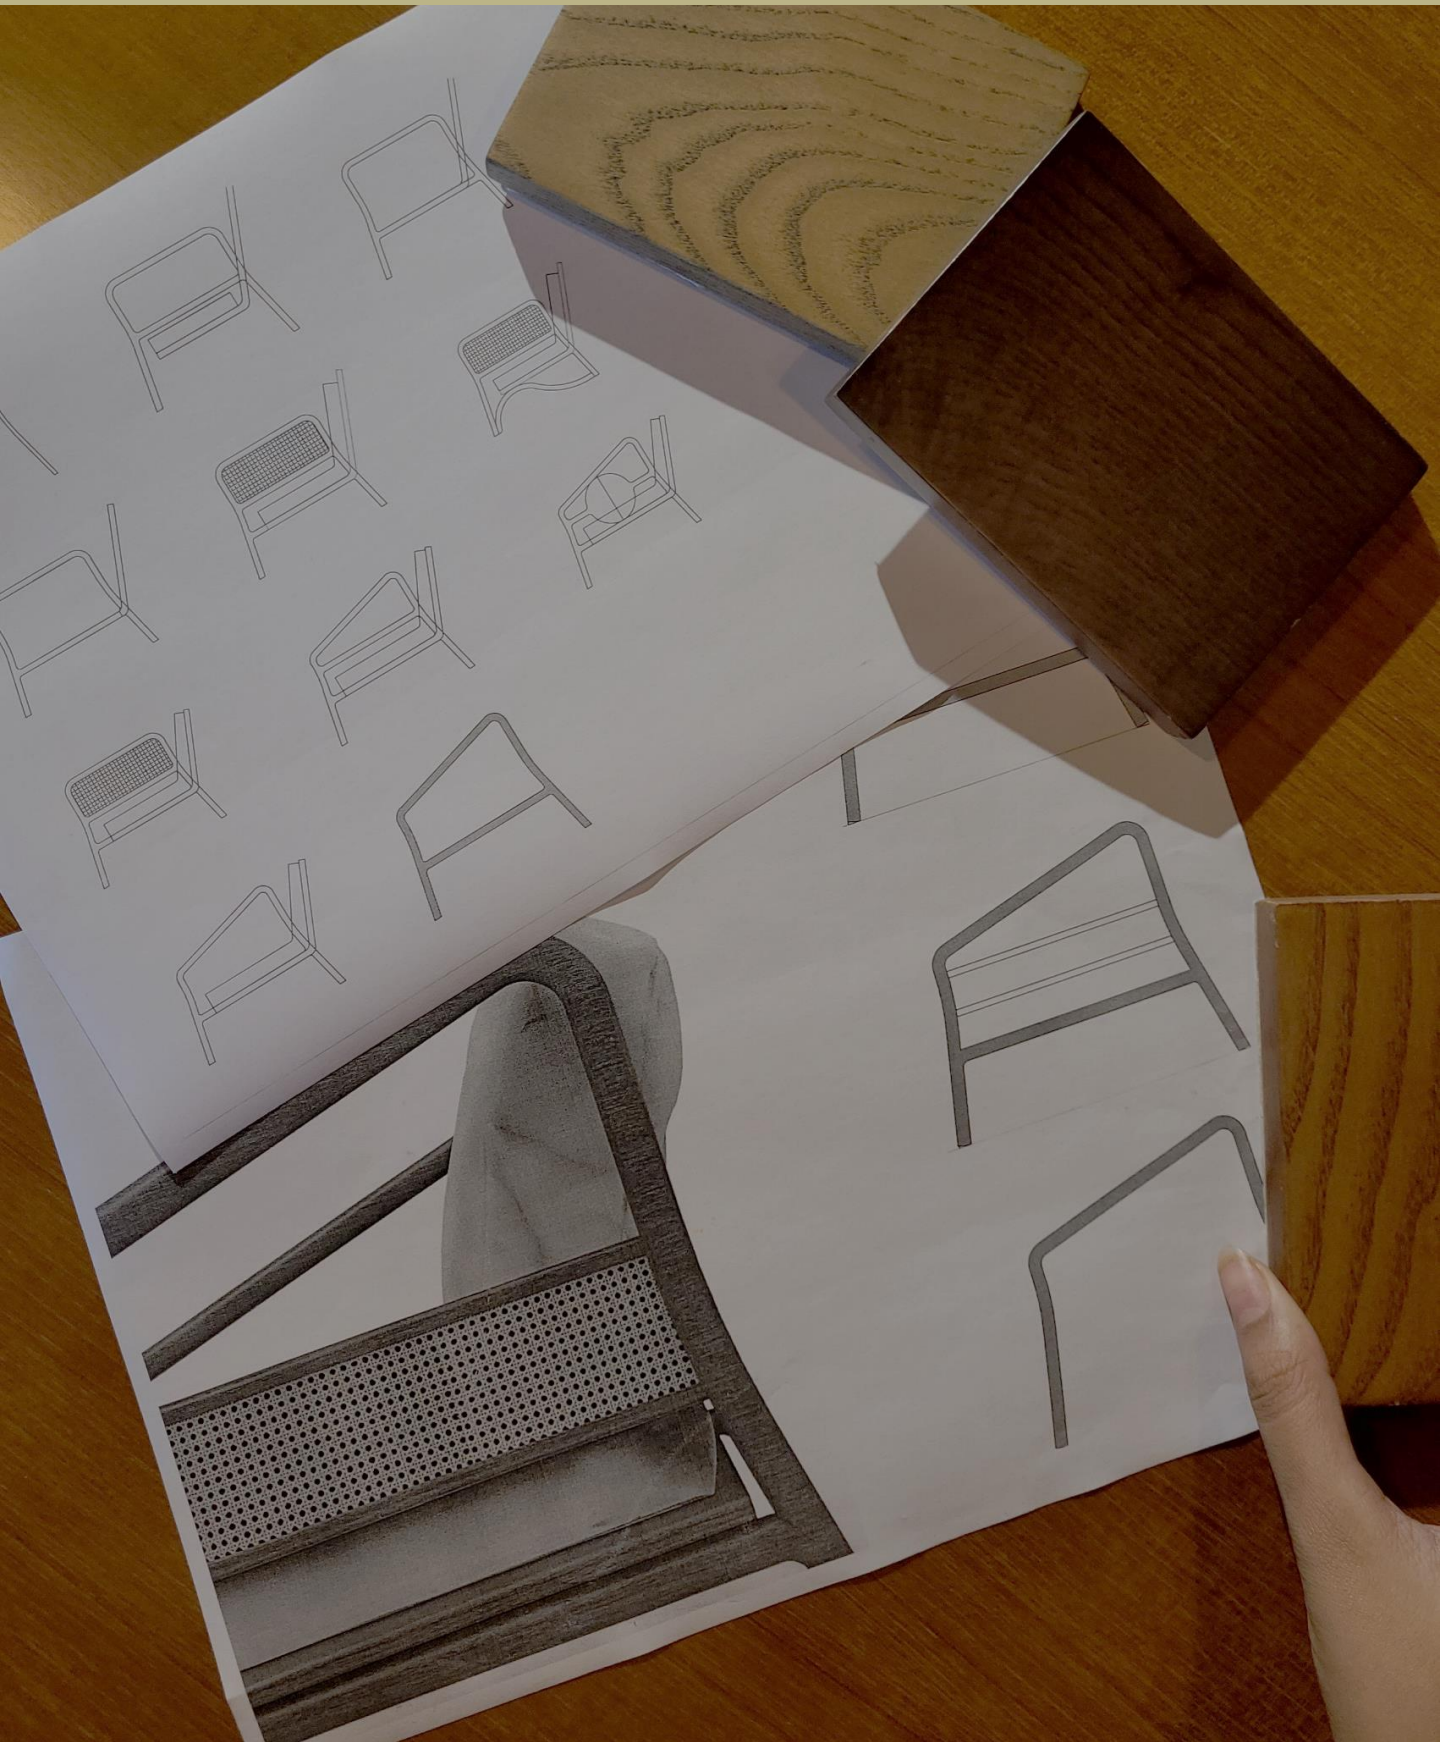

Intricate detail of Cane and modern shape of furniture creates a wonderful juxtaposition of style and feeling.

Our Furniture is made from seasoned Solid wood that undergoes a 3-step treatment for protection against borers and is kiln-dried for moisture control.

Polishing is a great way to bring out wood's natural qualities, restore its shine and even highlight its grains. After a lot of brainstorming sessions – we picked the right polish shade and Fabric that enhances your living space.

This set is inspired by Scandinavian design - the seating accompanied by comfy cushions is sure to add a hint of coziness to your living space. The coffee table follows the language of the seating, with tapered legs and a caned detail on sofa adds an artisanal touch to the overall design.

a touch of
artistry
