WARNING

FALL OR STRANGULATION HAZARD

Your child can slip through leg opening or fall out of product and suffer a serious head injury.

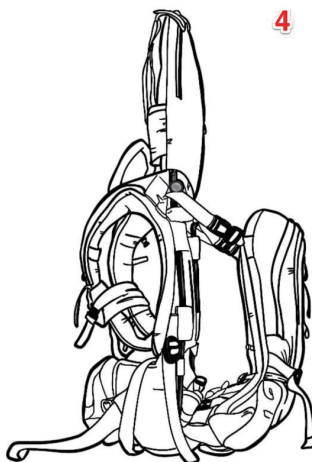

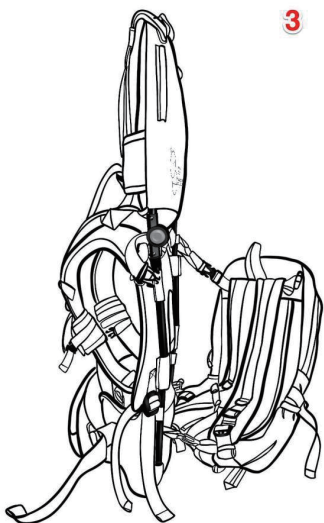

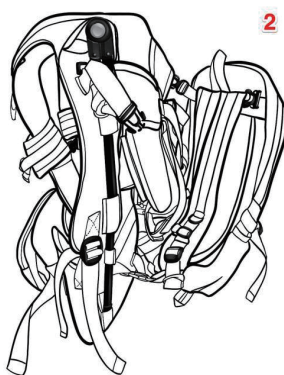

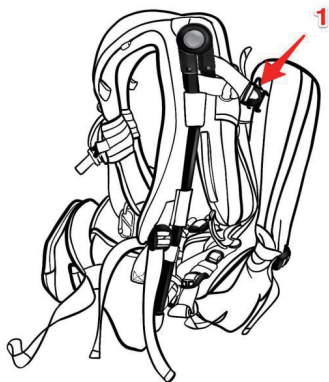

- Always use child retention system and adjust to fit snugly.
- Do not use carrier with a child weighing less than 16 lb, or more than 40 lb.
- Do not load more than maximum overall weight 50 lb (Child + Cargo).
- Do not use carrier if child cannot sit upright unassisted.
- Do not place carrier on counter tops, tables, or other elevated surfaces.
- Read all instructions before assembling and using the frame child carrier.
- Keep instructions for future use.
- Be aware of fatigue during prolonged use. Take regular breaks as needed.
- Check to assure all buckles, snaps, straps, and adjustments are secure before each use.
- Never leave the child unattended in the carrier.
- Periodically check that the child's legs have adequate circulation.
- Never bend at waist; bend at knees.
- Items attached to the carrier may change the balance of the product and cause a hazardous, unstable condition.
- This carrier is designed only use while walking. It should not be used for any sporting activities such as climbing, cycling, skiing, or similar activities.
- Never use a frame carrier when balance or mobility is

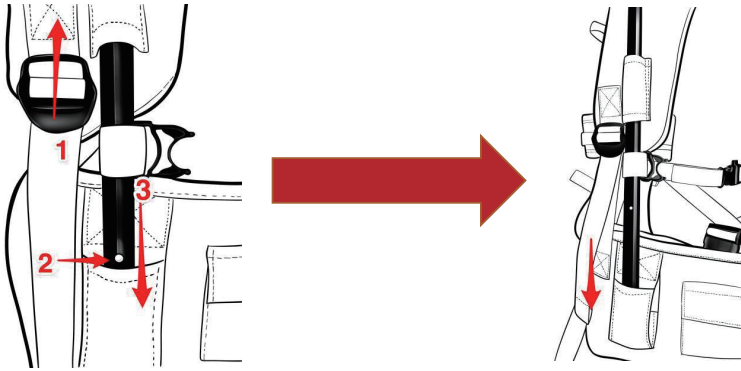

impaired because of exercise, drowsiness, or medical conditions.

- Do not use this product near fire or open flame.
- Care should be taken to avoid hazards in the environment when in use, as the child may sit higher than the height of the caregiver. For example, door frames, low branches of trees, etc.
- The bearer can be put off balance if the child moves around in the seat.
- The bearer can lose his or her balance if the child moves around in the seat.
- The bearer must be very careful when leaning forward or backward.
- Be extra attentive when lifting the OE carrier for use and at removal. All the instructions must be followed carefully.
- The child and the bearer must be properly secured to the baby carrier before use and in accordance with the instructions.
- Maximum child weight is 40lbs/18 kg.
- The child should always wear a hat to protect it from the sun, and use sunscreen etc, in warm weather.
- Accessories and parts must only come from authorized dealers of Our Expedition Inc.

To Unfold:

Unbuckle the yellow strap from the backpack. Lift up the backrest until you hear a click, and reattach the backpack.

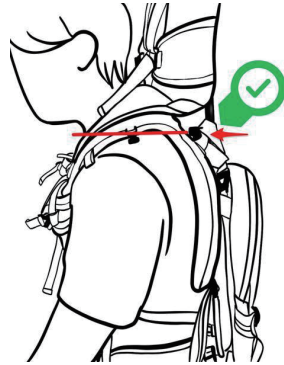

1. Loose the strap to make space for longer frame.
2. Push down the push pin to unlock the extension tube.
3. Pull the extension tube down to make it longer and engage the push pin again when the desire length is achieved.

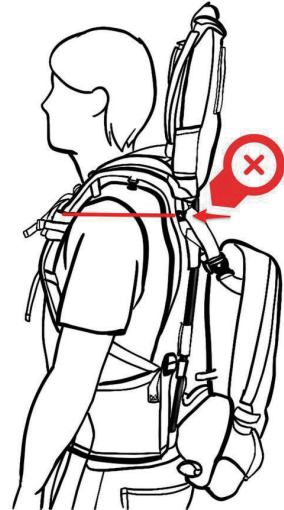

Repeat for the other side.

To Fit:

First put on the carrier and tighten the hip belt right above your hip bone/belly button. Check and see if the top of your shoulder is aligned with the plastic hook (which is also holding the yellow strap) on the frame like this.

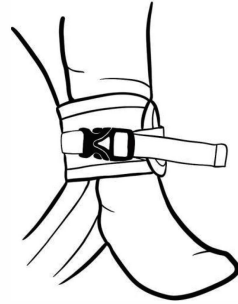

If the plastic hook is below the shoulder like this, you need to adjust the frame length by extending the tube with the push pin.

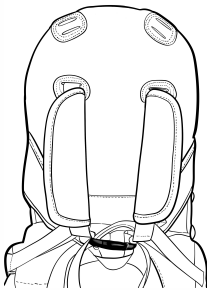

To Carry:

1. Unbuckle the child's 4-point harness to open up the seat and lift your child over your head and place the child behind your neck.
2. Buckle up the 4-point harness.
3. Hold the child's knees and push his/her bottom to the back of the seat so the child can sit up and adjust your shoulder strap under your armpit until you have enough space for your neck.
4. Tighten the child's hip belt.
5. Buckle up the child's ankle straps.

You are good to go!

Note:The shoulder straps for the child are adjustable and removable.

Sunshade:

Sunshade is inside the backrest. Take it out and open it up. Insert the two legs into the two slots on the backrest and buckle the two strings with to the side of the shoulder straps.

To Fold:

Push down the two buttons on the hinge and release the lock, then fold down the backrest.

Note: Everything can be wipe cleaned or machine washed.
